

Apply with control, work with speed: **First Bosch cordless caulking gun for professionals** Full compatibility with the existing 18 volt range

September 2018

PI 10768 PT MS

- ▶ High degree of control thanks to speed settings and accelerator switch
- ▶ Fast working progress even with highly viscous adhesives and sealants
- ▶ Clean application thanks to automatic reverse function

Bosch is extending its 18 volt range for professionals and is introducing a cordless caulking gun to the market for the first time. The GCG 18V-600 Professional provides tradespeople with a nine-level speed setting to enable all common acrylics, silicones, adhesives and epoxy resins to be applied with exceptional control. In addition, the caulking gun is equipped with an accelerator switch, which provides additional control for finishing work. In order to apply viscous adhesives and sealants quickly, the GCG 18V-600 Professional has a push force of 3.5 kilonewton as well as a feed rate of 9 millimeters per second. The cordless caulking gun also has an automatic reverse function: When the user stops pressing the accelerator switch, no material leaks out afterwards. This enables builders of facades, windows and kitchens, tradespeople in the interior fitting or automotive sector, installers and sealing experts to work in a controlled, fast and clean manner. The cordless caulking gun is suited for both cartridges with a fill volume of up to 400 milliliters and foil bags of up to 600 milliliters. Both can be simply and conveniently changed in very few steps to suit a variety of different tasks.

Full compatibility with the existing 18 volt range

The GCG 18V-600 Professional is powered by high-performance 18 volt lithium-ion batteries which are part of Bosch's "Flexible Power System". Advantage for tradespeople: They can use their battery immediately without having to worry about whether it will fit. The "Flexible Power System" guarantees compatibility with all new and existing professional power tools and chargers within the same voltage class. This results in greater productivity in day-to-day work.

The GCG 18V-600 Professional will be available from September. All prices are recommended retail prices excluding VAT. Subject to change.

Specifications	GCG 18V-600 Professional
Battery voltage	18 V
Push force	3.5 kN
Feed rate	9 mm/s
Speed settings	9
Capacity cartridge	400 ml
Foil bag capacity	600 ml
Accelerator switch	Yes
Automatic reverse function	Yes
Dimensions	635 x 255 x 80 mm
Weight without battery	2.2 kg
Scope of delivery/Recommended retail price excluding VAT	Individual variant without battery and charger: €299

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, power tool accessories and measuring tools. In 2017, its roughly 20,000 associates generated sales of 4.7 billion euros, about 85 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2018, Bosch Power Tools will again launch more than 100 new products onto the German market in its four business segments power tools, accessories, measuring tools and garden tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 402,000 associates worldwide (as of December 31, 2017). The company generated sales of 78.1 billion euros in 2017. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT company, Bosch offers innovative solutions for smart homes, smart cities, connected mobility, and connected manufacturing. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to deliver innovations for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. At 125 locations across the globe, Bosch employs some 64,500 associates in research and development.
