

Bosch Smart Home 360° Indoor Camera

Security at a glance – and more!

This panoramic full-HD camera misses nothing, while also respecting users' privacy thanks to a camera head that can be mechanically retracted the housing at the tap of your finger. Thanks to infra-red technology the camera can record videos even at night. The Bosch Smart Home Indoor Camera is convenient to regulate and control via smartphone. In addition, the 360° indoor camera can be integrated into the Bosch Smart Home System and controlled via Amazon's Alexa voice service.

Notable features and benefits:

- Integrated motion sensors make it possible to record only those events that are relevant
- Two-way communication between your smartphone and living area via integrated speaker and microphone
- Records in full-HD quality with local, encrypted storage
- Notifies the user of events in the Bosch Smart Camera App or the Bosch Smart Home App
- Integrated in the Bosch Smart Home System, the camera is a valuable device of the alarm system for verifying the situation
- Puristic design, awarded with IF Design and Red Dot Award 2017

Latest software update:

- Triggering of video recordings possible not only with movement, but now also with sound
- More security and ease of use with precise date and time displays in video clips and additional settings options, among other features
