

Lightweight yet powerful: **The new 18 volt cordless hedgecutter from Bosch** Controlled, comfortable and efficient cutting

August 29, 2018

PI 10756 PT MS

- ▶ Persistent in use: Maximum runtime, thanks to the “Syneon Chip”
- ▶ Proven performance on thicker branches: “Anti-Blocking system” for interruption-free working
- ▶ Truly versatile: One rechargeable battery for various tools in the “Power for All” system

Hedge-cutting made simple: Bosch is launching the EasyHedgeCut 18-45, a remarkably lightweight yet powerful cordless hedgecutter, as an 18-volt entry-level model. Weighing just 2.3 kilos, it cuts small, young hedges efficiently every time – up to 160 square meters per battery charge. This is made possible by the optimum coordination of key components such as the motor and the gearbox, combined with an intelligent electronic system, the “Syneon Chip”, so that users can always benefit from the maximum runtime per battery charge. What’s more, the hedgecutter is powerful right up to the last cut: It holds its full power until the battery is empty. The tried-and-tested “Anti-Blocking system” celebrates its tenth anniversary this year. It ensures that work progresses rapidly, even when tackling thicker branches: If the blades fail to cut through a thick or particularly hard branch at the first attempt, micro-electronics in the motor adjust the running direction of the blades so that they are repeatedly applied to the same point until the branch has been cut through. This feature is unique to Bosch.

The EasyHedgeCut 18-45 features a new design in Bosch Pale Green and Black with high-quality surface. It offers great operating comfort thanks to its lightweight design and balance: It sits perfectly in the user’s hand, making it extremely easy to guide. The 450-millimeter diamond-ground blade, boasting a 15-millimeter tooth opening, ensures that small, young hedges are cut cleanly and efficiently. From small through to large and woody – whatever the hedge, Bosch can offer users just the right cordless tool, either 12, 18 or 36 volt. For large hedges, for example, we recommend the AdvancedHedgeCut 36. It allows users to cut up to 300 square meters per battery charge.

A smart combination: “Power for All” from Bosch

The EasyHedgeCut 18-45 is part of the “Power for All” battery system, which comprises DIY and garden tools. The same 18 volt lithium-ion battery can be used to operate more than 25 different power tools, from hedgecutters to rotary hammers. This enables do-it-yourselfers to do without batteries and chargers that they do not need, and they can save money at the same time. A “Power for All” logo on the packaging indicates which tools belong to the system.

The EasyHedgeCut 18-45 cordless hedgecutter will be available from Spring 2019. The price is the recommended retail price including VAT.

Specifications*	EasyHedgeCut 18-45
Battery voltage/capacity	18 V/2.0 Ah
No-load stroke rate	2,400 rpm
Blade length	450 mm
Tooth opening	15 mm
Dimensions (length x width x height)	861 x 153 x 178 mm
Anti-Blocking system	Yes
Weight including battery	2.3 kg
Scope of delivery/recommended retail price including VAT	Tool including 2.0 Ah battery and charger: €129.99

*All figures are provisional and based on internal measurements.

Subject to change.

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, power tool accessories and measuring tools. In 2017, its roughly 20,000 associates generated sales of 4.7 billion euros, about 85 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2018, Bosch Power Tools will again launch more than 100 new products onto the German market in its four business segments power tools, accessories, measuring tools and garden tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 402,000 associates worldwide (as of December 31, 2017). The company generated sales of 78.1 billion euros in 2017. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT company, Bosch offers innovative solutions for smart homes, smart cities, connected mobility, and connected manufacturing. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to deliver innovations for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. At 125 locations across the globe, Bosch employs some 64,500 associates in research and development.
