

Cordless lawn care with 18 and 36 V: **New cordless entry-level mowers from Bosch** Easy handling, compact design

July 2019

PI 10965 PT MS

- ▶ For smaller lawns: CityMower 18 as part of the 18 V system “Power for All”
- ▶ Powerful and particularly space-saving: 36 V EasyRotak 36-550
- ▶ Ergonomic and effortless: Simple operation thanks to Ergoflex system

Bosch is making it easier for users to get started with cordless lawn care: In future, the 18 V CityMower will be available for lawns up to 200 square meters. It is the first Bosch mower in the “Power for All” system and expands once more its application range: More than 25 power tools can be operated using the supplied 4.0 Ah battery – from rotary hammers right through to hedgecutters. If you want a more powerful yet still particularly space-saving entry-level model, reach for the 36 V EasyRotak 36-550. It is suitable for lawns of up to 550 square metres and can be stowed away in the tightest of spaces at a height of just 55 centimetres thanks to the double folding handle and its stackable grass box.

Ergonomic and effortless: Simple operation thanks to Ergoflex system

Both the 18 V and the 36 V mowers are easy and effortless to operate thanks to the proven Ergoflex system: Its multi-position handle features ergonomically shaped grip zones. It fits perfectly in the hand and the mower can therefore be controlled from a total of eight different positions. Additional equipment includes a central cutting-height adjustment as well as grass combs that allow you to cut close to edges and save rework. The cutting width and grass box have been adapted to the respective model: The CityMower 18 works with a cutting width of 34 centimeters and a 31 liter grass box, while the EasyRotak 36-550 works with a cutting width of 38 centimeters and a 40 liter grass box. Both mowers are very lightweight: The CityMower 18 weighs less than ten kilograms, the EasyRotak 36-550 weighs 15 kilograms. Both mowers feature a new design in Bosch Pale Green and Black.

The CityMower 18 cordless lawnmower is available from July, the EasyRotak 36-550 will be available from spring 2020. On the 18 V model, a “Power for All” logo on the packaging indicates which tools are part of the system. Accessories such as blades are available from the Bosch’s range of accessories. All prices are recommended retail prices including VAT.

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world’s leading providers for power tools, power tool accessories and measuring tools. In 2018, its roughly 20,000 associates generated sales of 4.6 billion euros, about 85 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2019, Bosch Power Tools will again launch more than 100 new products onto the German market in its four business segments power tools, accessories, measuring tools and garden tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 410,000 associates worldwide (as of December 31, 2018). The company generated sales of 78.5 billion euros in 2018. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT company, Bosch offers innovative solutions for smart homes, smart cities, connected mobility, and connected manufacturing. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to deliver innovations for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 460 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. At nearly 130 locations across the globe, Bosch employs some 68,700 associates in research and development.
