

Trimming shrubs and lawn edges in shape

The new EasyShear from Bosch

The 2-in-1 cordless helper in the garden

March 2020

PI 11102 PT MS

- ▶ Cutting, trimming, shaping – everything with just one device
- ▶ Operating with one hand thanks to light and compact design
- ▶ Diamond-ground Swiss made quality blades for precision
- ▶ Tool free blade change within seconds

Bosch has made shrub and grass shears popular: In 2007, the Isio was the world's first shrub and grass shear with a lithium-ion battery on the market. With the EasyShear, Bosch offers a versatile device for any smaller mowing-, trimming- and cutting work in the garden and continues the success story. Weighing just 530 grams, the EasyShear is a very light power tool, comfortable to hold, can be stored away in no time, and is always ready to hand. The cordless shrub and grass shear combines two functions in one device and is suitable for cutting lawn edges, as well as forming and cutting back of shrubs and bushes. It trims and shapes grass, lavender bushes or box trees quickly, easily and exactly in shape. The laser-cut and diamond-ground Swiss made quality blades guarantee clean and accurate cuts. Even the blade change is easy and works without using tools: Simply remove the grass blade by turning to the side and slide the cover. Then insert the shrub shear and push it back into position. Whether as shrub or grass shear, the EasyShear is ready for use within seconds.

Thanks to the LED display, users always know for how long they can use the shrub and grass shear. When the battery has to be charged, the LED display lights red. The battery is easy to recharge by using a micro USB cable.

The EasyShear will be available from March 2020. All prices are recommended retail prices including VAT.

Specifications	EasyShear
Battery voltage/capacity	3.6 V lithium-ion/1.5 Ah
Shrub blade length	120 mm
Grass blade length	80 mm

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, power tool accessories and measuring tools. In 2018, its roughly 20,000 associates generated sales of 4.6 billion euros, about 85 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2019, Bosch Power Tools will again launch more than 100 new products onto the German market in its four business segments power tools, accessories, measuring tools and garden tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 403,000 associates worldwide (as of December 31, 2019). The company generated sales of 77.9 billion euros in 2019. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT company, Bosch offers innovative solutions for smart homes, smart cities, connected mobility, and connected manufacturing. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to deliver innovations for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 460 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. At nearly 130 locations across the globe, Bosch employs some 68,700 associates in research and development.
