

Clean, fast and convenient: **Two new chainsaws from Bosch** High cutting performance and control

June 2020

PI 11101 PT MR

- ▶ Fast: Powerful motor and high chain speed
- ▶ Clean: Lateral oil tank and automatic chain lubrication
- ▶ Convenient: Tool-free tensioning and servicing of the chain due to SDS system

Fast, clean, safe and comfortable sawing: With the UniversalChain 35 and UniversalChain 40, Bosch is launching two new corded chainsaws with blade lengths of either 35 or 40 centimeters on the market – and is placing the focus firmly on user comfort and safety. Both saws offer a new design with lateral oil tank for the chain lubrication. In contrast to chainsaws with the opening on the rear of the power tool, this means that topping up with oil is easier and cleaner. The oil filter is located at the bottom of the tank. The oil flows in cleanly and does not ooze out again. A specially developed thread ensures that the sealing cap can be screwed off and on with only two to three turns. Chain lubrication takes place automatically. Oil-smeared, slippery handles and contaminated saw blades are now a thing of the past.

Whether you are turning timber or tree trunks into firewood, neatly pruning branches or small to medium-sized trees, or removing old garden fences: The chainsaws are easy to operate and handle. The chainsaw guarantees a high cutting performance with its combination of the automatic lubrication system and a powerful 1,800-Watt motor with a chain speed of 12 meters per second. The Bosch SDS system makes tool-free and simple tensioning, adjusting and servicing of the chain possible in just a few steps. A symbol on the blade indicates the assembly direction of the chain. Additional control and safety is provided by a stable hand guard with integrated kickback braking system: The kickback protection stops the saw immediately to protect users in case of jamming. The new product design with a clear and well-balanced style, reduced number of control elements and a calm and serene silhouette guarantees the best possible handling comfort. The complete equipment of the chainsaws and

their light weight are designed to make sawing as easy as possible – so that every cut fits.

The UniversalChain 35 and UniversalChain 40 chainsaws are available now. All prices are recommended retail prices including sales tax.

Specifications	UniversalChain 35	UniversalChain 40
Motor power	1800 W	1800 W
Blade length	35 cm	40 cm
Chain speed	12 m/s	12 m/s
Vibration level	4 m/s ²	4 m/s ²
Drive link thickness	1.1 mm	1.1 mm
Chain type	Oregon LP PX90	Oregon LP PX90
Oil tank capacity	0.25 l	0.25 l
Dimensions with blade (length x height x width)	735 x 216 x 270 mm	785 x 216 x 270 mm
Weight (incl. chain and blade)	4.2 kg	4.3 kg
Scope of delivery/recommended retail price including sales tax	Device including saw chain, blade, chain cover: 119.99 €	Device including saw chain, blade, chain cover: 139.99 €

Subject to change.

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, power tool accessories and measuring tools. In 2018, its roughly 20,000 associates generated sales of 4.6 billion euros, about 85 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2019, Bosch Power Tools will again launch more than 100 new products onto the German market in its four business segments power tools, accessories, measuring tools and garden tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 400,000 associates worldwide (as of December 31, 2019). The company generated sales of 77.7 billion euros in 2019. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. Bosch employs some 72,600 associates in research and development at 126 locations across the globe, as well as roughly 30,000 software engineers.
