

Cutting made easy: **EasyCut&Grind from Bosch for DIYers** Smallest and lightest cordless angle grinder on the market

November 2020
PI 11219 PT MR

- ▶ Highly versatile: cutting and grinding of numerous materials
- ▶ Easy to use: Light, compact, quiet

The ideal helper for many DIY projects: The EasyCut&Grind is the smallest and lightest cordless angle grinder on the DIY market and is used everywhere where fast and simple cutting, shortening, shredding, deburring or grinding is required. Irrespective of whether you are working indoors or outdoors or in wood, plastic or metal. With the EasyCut&Grind, the Bosch “Home & Garden” division has developed a product for users for whom a conventional angle grinder is too large or too loud but who still wish to perform different cutting tasks. From the removal of protruding nails or screws to cutting to length of curtain rails or baseboards made of wood, as well as minor repairs or handicrafts, and on to rust removal and the grinding of small surfaces – the EasyCut&Grind completes all of these. With a weight of only 420 grams and a particularly compact and ergonomic design, the EasyCut&Grind reaches even narrow and difficult-to-access areas without any problems. Thanks to its small size and rotating cutting disc, it has a particularly low vibration and noise level – for example, in comparison to oscillating tools – and therefore is easy to guide and control. The tool is activated by pushing a button and switched on by a slide switch. It has a soft start and if the switch is released the tool stops immediately.

Highly versatile: Accessories program for numerous materials

The EasyCut&Grind includes a metal and a carbide multi-material cutting disc, which are suitable for metal, carton, wood, laminated and plastic materials. The cutting discs have a cutting depth of up to 14 millimeters and deliver precise results. A free hand cutting adapter makes it easy to cut off small workpieces and is also included in the scope of delivery. The workpiece is simply placed against the free hand cutting adapter and cut through without further ado. A grinding disc with three sanding sheets, which makes grinding and deburring works possible, completes the supplied accessories.

The EasyCut&Grind is available now. The price is the recommended retail price including sales tax.

Tool specifications	EasyCut&Grind
Battery voltage/capacity	7.2 V/2.0 Ah
No-load speed	0 – 6,000 rpm
Disk diameter	50 mm
Disk hole diameter	10 mm
Cutting depth	14 mm
Grip circumference	130 mm
Dimensions (length x width x height)	210 x 50 x 95 mm
Weight including battery	420 g
Scope of delivery/recommended retail price including 16% sales tax	Tool including battery, metal cutting disc, carbide multi-material cutting disc, grinding disc, 3 x abrasive discs, off-hand cutter adapter, transport hood with integrated Allen key, USB-C charging cable: 97.47€

Subject to change.

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, power tool accessories and measuring tools. In 2019, its roughly 20,000 associates generated sales of 4.8 billion euros, about 85 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2020, Bosch Power Tools will again launch more than 100 new products onto the German market in its four business segments power tools, accessories, measuring tools and garden tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 400,000 associates worldwide (as of December 31, 2019). The company generated sales of 77.7 billion euros in 2019. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. Bosch employs some 72,600 associates in research and development at 126 locations across the globe, as well as roughly 30,000 software engineers.
