

Individual Look for the cult screwdriver: **Style your Bosch Ixo now as you wish** Favorite design per Mylxo Configurator

November 2020
PI 11234 PT MR

- ▶ Mylxo Configurator new in the Bosch Heroes E-Shop
- ▶ Individual color combinations and Ixo adapters can be ordered directly
- ▶ Ixo of the latest generation with Speed Control
- ▶ 30 percent shorter charging time and thus ready for use faster than ever

For those who always wanted to compile their own personalized favorite Ixo, the [Ixo Configurator Mylxo](#) is now available: The most popular power tool in the world can be styled individually with this configurator exclusively in the Bosch Heroes E-Shop in two steps. Noble Black or Fresh White – the housing color is selected in the first step. Fresh Red, Ice Blue, Light Green or Black – the colors of the handles are then combined. Everybody thus receives their own personal favorite combination. And because the Ixo, thanks to the adapters in the Ixo Collection, can do a lot more than screwdriving, the adapters can also be booked directly upon request: Whether this relates to lifestyle features such as the cork-screw adapter Vino, the spice mill adapter, the Barbecue grill blower adapter, or DIY applications with a drilling, angle screw, off-set angle or universal cutting adapter – everyone orders exactly what they need.

Mylxo – latest generation with Speed Control and 30 percent shorter charging

Whatever Mylxo looks like: The personal favorite Ixo is a tool from the latest generation with Speed Control and a 30 percent shorter charging time compared to the predecessor. The secret is the digital control system: The stronger the switch is pressed, the faster the Ixo screws. This stepless control makes the Ixo unique in its class and is gentle on screws and surfaces. And for all those who can not get enough of their new Ixo, the tool is ready for use again after a charging time of less than two hours thanks to improved hardware and software. It goes without saying that the light and charging indicator via LED are integrated as before and also guarantee high convenience.

[Mylxo](#) can be configured and ordered from December. The Ixo Classic (see PI 11233) and the Ixo Colour Edition in Raspberry Red also remain in the program.

Tool Specifications	Mylxo (6th Generation)
Battery voltage/capacity	3.6 V lithium-ion / 1.5 Ah
No-load speed	0 – 215 rpm

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, power tool accessories and measuring tools. In 2019, its roughly 20,000 associates generated sales of 4.8 billion euros, about 85 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2020, Bosch Power Tools will again launch more than 100 new products onto the German market in its four business segments power tools, accessories, measuring tools and garden tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 400,000 associates worldwide (as of December 31, 2019). The company generated sales of 77.7 billion euros in 2019. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company's future growth is its innovative strength. Bosch employs some 72,600 associates in research and development at 126 locations across the globe, as well as roughly 30,000 software engineers.
