

### First cordless wet/dry vacuum cleaner in the DIY range: **Mobile 3-in-1 multi-talent AdvancedVac 18V-8 from Bosch** Numerous applications in the house and garden

July 6, 2021

PI 11347 PT MR

- ▶ Removes dust, dirt, and liquids both indoors and outdoors
- ▶ Many additional applications thanks to integrated blowing function
- ▶ Universal adapter for dust extraction on power tools
- ▶ Extension of the 18 V “Power for All” System– one battery for around 40 tools

Whether wet or dry, coarse, or fine: The AdvancedVac 18V-8 is the first wet/dry vacuum cleaner in the DIY range from Bosch. It reliably removes dirt both indoors and outdoors. House, hobby workshop, garden, car or mobile home – thanks to integrated rollers and a large range of accessories such as inflation nozzles, suction pipes as well as floor and crevice nozzle, the AdvancedVac 18V-8 is much more versatile than conventional wet/dry vacuum cleaners for DIYers. For example, it can vacuum up potting soil spilled in the trunk of a car just as easily as water which has flowed out of a washing machine. Switching from dry to wet applications takes just a matter of seconds without having to change the filter. DIYers can also quickly and easily switch the AdvancedVac 18V-8 from the suction function to the blowing function by repositioning the hose. It can then also inflate air mattresses or remove leaves in the courtyard driveway. And that’s not all: The portable and rolling 3-in-1 multi-talent also features a universal adapter which enables it to be connected to many different power tools, for example the cordless jigsaws EasySaw 18V-70 and UniversalSaw 18V-100. The AdvancedVac 18V-8 then vacuums the dust directly from where it is produced and minimizes annoying cleaning after sawing. The Eco Mode extends the battery runtime and is ideally suited for lighter suction applications.

#### **“Power for All” – one battery for all applications in the home and garden**

The AdvancedVac 18V-8 enhances the [18 V „Power for All“ battery system](#) from Bosch. It comprises around 40 DIY tools, garden tools and home appliances – and thanks to the [“Power for All Alliance”](#), it even goes beyond the Bosch range. All tools – from rotary hammer to lawn mower – can be operated with one and

the same 18 V lithium-ion battery. Only one charger per volt class is needed. This saves DIYers space and money and protects the environment.

The AdvancedVac 18V-8 will be available from September. All prices are recommended retail prices including VAT.

Specifications	AdvancedVac 18V-8
Battery voltage	18 V
Max. vacuum pressure (turbine)	92 mbar
Max. flow volume (turbine)	29 l/s
Container volume, gross	8 L
Hose length	1.8 m
Runtime (with one 4.0 Ah Power Plus battery)	4 min/Ah (Power Mode) 6 min/Ah (Eco Mode)
Dimensions (length x width x height)	376 x 278 x 295 mm
Weight without battery	3.8 kg
Scope of delivery/recommended retail price including VAT	Tool in a carton box including suction hose, three suction pipes, a floor nozzle including a wet and dry clip, a crevice nozzle, a curved nozzle, a universal adapter, inflation nozzles, a flat-fold filter and paper bag (excluding battery and charger): €119.99

Subject to change.

*The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2020, its roughly 20,000 associates generated sales of 5.1 billion euros, about 85 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2021, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, garden tools, accessories and measuring tools.*

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 395,000 associates worldwide (as of December 31, 2020). The company generated sales of 71.5 billion euros in 2020. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. With its more than 400 locations worldwide, the Bosch Group has been carbon neutral since the first quarter of 2020. The basis for the company's future growth is its innovative strength. At 129 locations across the globe, Bosch employs some 73,000 associates in research and development, of which nearly 34,000 are software engineers.*
