

### Additions to the '18V Power for All System': **Two new multi-sanders from Bosch for DIYers** The right tool for every application

November 2022  
PI 11577 PT MR

- ▶ Versatile, high-performance sanding: UniversalSander 18V-10
- ▶ Ergonomic entry-level sander for smaller areas: EasySander 18V-8
- ▶ One battery for many applications: Save space and money, protect the environment

With the two new cordless multi-sanders EasySander 18V-8 and UniversalSander 18V-10, Bosch is extending its ['18V Power for All System'](#) to include an entry-level tool and a versatile sander for a large number of renovation and restoration projects in home and garden. The '18V Power for All System' also covers all representative tools in each segment, currently comprises about 60 DIY tools, gardening tools, and home appliances, and even extends beyond the Bosch range thanks to the cross-brand ['Power for All Alliance'](#). All tools – from rotary hammer to lawn mower and even vacuum cleaner – can be operated with the same 18V lithium-ion battery and only one charger. This saves users space and money and protects the environment.

#### **Low-dust sanding thanks to a new microfilter dust box**

The two multi-sanders enable DIYers to evenly remove material from surfaces just like the corded pendants PSM 80 A and PSM 100 A, but with the freedom and flexibility of a cordless tool. The tools have a striking new design: The microfilter dust box reduces the amount of dust and, thanks to the new position, can be simply removed for emptying. For very low dust levels, users can also attach a vacuum cleaner to both sanders. The position of the battery at the top of the tool is another novelty. The multi-sanders therefore feel well balanced in the hand. Since this prevents fatigue when sanding, longer tasks can also be performed.

#### **Less wear and tear thanks to a rotatable delta plate**

The rotatable tip of the delta plate is unique in the two tools from Bosch: Thanks to the special shape, corners can also be easily reached with the

sanders. If a plate ever becomes worn after intensive use, both the sanding paper and the complete triangular attachment can be detached at the front, rotated, and re-attached. Sanding work can therefore be quickly continued, and the service life of the tool is substantially extended since the sanding sheets need not be replaced immediately.

### **UniversalSander 18V-10: Powerful multi-talent**

The UniversalSander 18V-10 is characterized by its versatility and ease of operation. If necessary, the triangular sander is turned into an orbital sander in an instant: Thanks to the SDS system, the triangular sanding plate can be simply removed and replaced by the supplied rectangular sanding plate. Large areas, for example on a dining table, can therefore also be easily sanded down. Smaller gaps, for example in window shutters, can be handled with attachable accessories such as a sanding finger or a louvre sanding attachment. Electronic speed preselection via a rotary switch enables users to adjust the orbital stroke rate precisely to their needs and materials. Whereas a higher orbital stroke rate is recommended for large, non-sensitive surfaces made of metal or solid wood, the slower movement of the sanding sheet is suitable for more purposeful sanding, for example to remove paint residues.

### **EasySander 18V-8: Ergonomic entry-level tool**

For simpler tasks and smaller areas, Bosch is supplementing its range of multi-sanders in the cordless segment with the EasySander 18V-8. Its ease of operation and ergonomic design make this multi-sander a tool that is also suitable for less experienced DIYers. Thanks to its triangular sanding plate, the EasySander 18V-8 is well-suited for repairs or sprucing up small to medium-sized pieces of furniture, and for sanding down window frames or edges of toys.

The EasySander 18V-8 and UniversalSander 18V-10 are available as of now. All stated prices are recommended retail prices including VAT.

<b>Tool specifications</b>	<b>EasySander 18V-8</b>	<b>UniversalSander 18V-10</b>
Battery voltage	18 V	18 V
Runtimes (when the triangular plate is used)	<ul style="list-style-type: none"> <li>• 2.5 Ah: 30 min</li> <li>• 4.0 Ah: 60 min</li> <li>• 6.0 Ah: 90 min</li> </ul>	<ul style="list-style-type: none"> <li>• 2.5 Ah: 25 min</li> <li>• 4.0 Ah: 40 min</li> <li>• 6.0 Ah: 60 min</li> </ul>
Orbital stroke rate	22,000 min <sup>-1</sup>	12,000-22,000 min <sup>-1</sup>
Orbital diameter	1.6 mm	1.6 mm
Sanding sheet fixation	Micro-Velcro	Micro-Velcro
Sanding plate dimensions	101 x 149 mm	101 x 149 mm / 93 x 183 mm
Tool dimensions (length x width x height)	284 x 104.5 x 145 mm	278.5 x 98.8 x 153.2 mm
Weight without battery	0.82 kg	0.98 kg
Scope of delivery/ recommended retail price including VAT	Tool in carton (without battery and charger), 3 x sanding sheets (P80, P120, P180): €69.99	Tool in carton (without battery and charger), with an iron-shaped and rectangular base plate, 1x iron-shaped sanding sheet (P80), 1x rectangular sanding sheet (P80): €89.99

Subject to change.

*The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2021, its roughly 21,000 associates generated sales of 5.8 billion euros, about 80 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2022, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, garden tools, accessories and measuring tools.*

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 402,600 associates worldwide (as of December 31, 2021). The company generated sales of 78.7 billion euros in 2021. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. With its more than 400 locations worldwide, the Bosch Group has been carbon neutral since the first quarter of 2020. The basis for the company's future growth is its innovative strength. At 128 locations across the globe, Bosch employs some 76,100 associates in research and development, of which more than 38,000 are software engineers.*
