

### Expansion of the Professional 18V System: **New cordless jigsaws from Bosch for professionals** The right tool for every application

November 2022

PI 11583 PT MR

- ▶ Optimized for precise cutting: GST 18V-155 SC and GST 18V-155 BC Professional
- ▶ Equipped with either a barrel grip or a bow handle
- ▶ Different functions such as individual setting via app
- ▶ Multi-brand battery system saves time, space, and money

In order to offer professionals a suitable solution without an annoying cord for every job in a workshop or on a construction site, Bosch is launching two new cordless jigsaws on the market in the [Professional 18V System](#): the GST 18V-155 SC Professional and GST 18V-155 BC Professional for particularly precise cuts and detailed work. The tools have a cutting depth of 155 mm and are available with either a barrel grip or a bow handle (B). Thanks to modern battery technology, the new tool generation is comparable with corded tools. A brushless motor delivers high performance. Furthermore, the Professional 18V System covers all other significant 18V applications that, thanks to the multi-brand [AmpShare battery alliance](#), go even beyond Bosch. [Many brands, many tools, one battery system](#): All tools – from compact drill drivers to miter saws with up to 2,000W of equivalent corded power – can be operated with the same 18V lithium-ion battery and a single charger. Tradespeople therefore save time, space, and money.

#### **Precision tools with an interactive display and individual setting via app**

The GST 18V-155 SC Professional and GST 18V-155 BC Professional jigsaws are designed for work that requires high precision and optimum results, for example low-tear cut-outs in worktops. Their new saw blade guide prevents the saw blade from bending even in narrow curves. This enables precise curved and freehand cuts to be made. The tools are well balanced and fit perfectly in the hand when used with the recommended ProCore18V battery with 4.0 Ah. The barrel grip version GST 18V-155 SC Professional is ergonomic for right-handed and left-handed users alike thanks to its 360-degree grip circumference and an on/off switch on each side of the tool. It can also be easily guided when sawing

from below. In addition, the jigsaws now offer tradespeople such as joiners, kitchen installers and trade fair constructors a user interface for the first time – an interactive display on the tool – and can even be individually adapted to the respective application via app. On request, the tools therefore save, for example, the set speed for sawing different materials such as hard wood, chipboard, or wood composite materials. The individual speed settings and other functions such as ‘Adaptive Speed Control’ (ASC) for a soft starting of the GST 18V-155 SC Professional saw can be controlled in the Bosch Toolbox app. The GST 18V-155 BC Professional has an accelerator switch which allows to continuously control the cutting speed, e.g., reduce the stroke rate at the start of the cut for better precision. Thanks to the switchable LED light, professionals always have a clear view of the cutting line. The jigsaws also offer a high level of occupational health and safety: The new ‘Drop Control’ function, which is unique in jigsaws, switches off the tool automatically when it is dropped. Anyone wanting to work with very low dust levels can fit an adapter to connect a wet/dry extractor such as the [GAS 18V-10 L Professional](#).

The GST 18V-155 SC Professional and GST 18V-155 BC Professional cordless jigsaws will be available from December onwards. A wide range of accessories, e.g. [jigsaw blades ‘Expert Hardwood fast’ with carbide technology](#), are available in the Bosch accessory program. The prices are recommended retail prices excluding VAT.

Tool specifications	GST 18V-155 SC Professional	GST 18V-155 BC Professional
Battery voltage	18 V	18 V
Motor	Brushless	Brushless
Stroke rate	800 – 3,800 min <sup>-1</sup>	0 – 3,800 min <sup>-1</sup>
Max. cutting depth in wood/metal	155/10 mm	155/10 mm
Handle	Barrel grip	Bow handle
User Interface/Connectivity	Yes	Yes
Weight without battery	2.0 kg	2.0 kg
Scope of supply/Recommended retail price excluding VAT	<ul style="list-style-type: none"> <li>• Tool in a carton: €303</li> <li>• Tool in L-Boxx 136: €328</li> <li>• Tool in the L-Boxx 136 with 2x ProCore18V batteries with 4.0 Ah and quick charger GAL 18V-40 Professional: €559</li> </ul> <p>All models contain 1x T 144 DP ‘Precision for Wood’ saw blade and 1x T308 BP ‘Precision for Wood’ saw blade, a splinter guard, a dust adapter, and a dust cover.</p>	<ul style="list-style-type: none"> <li>• Tool in a carton: €303</li> <li>• Tool in L-Boxx 136: €328</li> <li>• Tool in the L-Boxx 136 with 2x ProCore18V batteries with 4.0 Ah and quick charger GAL 18V-40 Professional: €559</li> </ul> <p>All models contain 1x T 144 DP ‘Precision for Wood’ saw blade and 1x T308 BP ‘Precision for Wood’ saw blade, a splinter guard, a dust adapter, and a dust cover.</p>

*The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2021, its roughly 21,000 associates generated sales of 5.8 billion euros, about 80 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2022, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, garden tools, accessories and measuring tools.*

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 402,600 associates worldwide (as of December 31, 2021). The company generated sales of 78.7 billion euros in 2021. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. With its more than 400 locations worldwide, the Bosch Group has been carbon neutral since the first quarter of 2020. The basis for the company's future growth is its innovative strength. At 128 locations across the globe, Bosch employs some 76,100 associates in research and development, of which more than 38,000 are software engineers.*
