

### New to the Professional 18V System: **First professional cordless concrete nailer from Bosch** Powerful system for easy and direct fastening

March 22, 2023  
PI 11635 PT MR

- ▶ Efficient work thanks to optimal pairing of tool and nails
- ▶ Quick fastening of drywall tracks in concrete or steel
- ▶ Nails with high load-bearing capacity, certified by ETA/CE and ICC
- ▶ Multi-brand battery system saves time, space, and money

Fast, powerful, and nearly dustless: Bosch is now adding the first cordless concrete nailer to its [Professional 18V System](#). The GNB 18V-38 Professional fastens drywall tracks in concrete or steel easily and in a single operation. This saves professionals both time and dust exposure, as without a concrete nailer, they would need to pre-drill the holes and then affix the tracks using anchors and screws. Unlike most tools on the market, the GNB 18V-38 Professional works without a gas cartridge, significantly lowering running costs, set-up time, and maintenance costs.

#### **Efficient Biturbo tool with multi-brand batteries**

The brushless Biturbo motor of the GNB 18V-38 Professional is designed to be robust and, in combination with the newly developed powerful air spring, fastens nails reliably in hard base materials. To work efficiently and with as little weight as possible, Bosch recommends using a ProCore18V battery with 4.0 Ah, which enables the GNB 18V-38 to fasten up to 500 nails on a single battery charge. The [Professional 18V System](#) covers all major 18V applications and even works with brands beyond Bosch, with additional partners in the multi-brand AmpShare battery alliance. [Many brands. Many tools. One battery system:](#) All tools – from compact drill drivers to miter saws with up to 2,000W of equivalent corded power – can run on the same 18V lithium-ion battery and charger, thus saving tradespeople time, space, and money.

### **Highly reliable and thoroughly certified**

Together, the cordless concrete nailer GNB 18V-38 Professional and its galvanized and hardened nails – which are available in lengths of 16 to 38 millimeters for concrete and sand-lime brick and 13 to 19 millimeters for steel – form a perfectly matching system. Thanks to European ETA/CE and American ICC certifications, drywall professionals can rely on the declared load capacities and thus on achieving the expected nail performance. These certifications are important, for example, when it comes to bidding for public contracts. Very few manufacturers offer such extensive levels of certification. In addition to the tool, all Bosch nails are certified according to the ICC standard, and the ETA/CE certification applies to the three most common nail versions: concrete nails with lengths of 25, 32, and 38 millimeters. All nails are available in strips of ten, with 1,000 nails per pack.

### **High efficiency meets high user protection**

The ease of use of the GNB 18V-38 Professional is designed to enhance productivity on the jobsite. To protect the user, the concrete nailer does not fire unless its nose is pressed firmly to the material's surface and the trigger is pulled shortly thereafter. To set the next nail, the nose must be lifted briefly. The fastener depth can be adjusted easily. A built-in mechanism also ensures that the cordless concrete nailer will only work with a full magazine. It holds 22 nails and a longer magazine with 42 nails is optionally available. In case a nail jams – for example due to debris in the nose of the tool – the push out pin supplied with the tool makes it easy to remove.

No matter where the job happens to be, the nailer's bright LED light illuminates the work area well. Users can check the control panel to keep track of the battery and tool status. The status display is color-coded to tell the user when which action is needed, giving users full control of their tool at all times.

The GNB 18V-38 Professional will be available starting in September. All prices are recommended retail prices and do not include VAT. Certified nails and additional accessories are available from the Bosch accessory range.

<b>Tool specifications</b>	<b>GNB 18V-38 Professional</b>
Battery voltage	18 V
Dimensions without battery (length x width x height)	405 x 138 x 309 mm
Trigger system	Full sequential actuation
Max. setting frequency	2 s <sup>-1</sup>
Nail length	13 – 38 mm
Nail shaft diameter	2.7 – 3 mm
Standard magazine capacity	22 nails
Weight without battery	4.1 kg
Available nail lengths	<ul style="list-style-type: none"> <li>• Concrete (NB): 16, 19, 25, 32, 38 mm</li> <li>• Wood construction on concrete (NK): 35 mm</li> <li>• Steel (NM): 13, 16, 19 mm</li> </ul>
Scope of delivery/recommended retail price excluding VAT	<ul style="list-style-type: none"> <li>• Tool in cardboard box: €799</li> <li>• Tool in XL-Boxx: €839</li> <li>• Tool in XL-Boxx with 2x ProCore18V battery with 4.0 Ah and GAL 18V-40 Professional charger: €1090</li> </ul>

<b>Available nails</b>	<b>Scope of delivery/recommended retail price excluding VAT</b>
Concrete NB-16	€131 per pack of 1,000
Concrete NB-19	€133 per pack of 1,000
Concrete NB-25	€135 per pack of 1,000
Concrete NB-32	€136 per pack of 1,000
Concrete NB-38	€140 per pack of 1,000
Wood construction on concrete NK-35	€138 per pack of 1,000
Steel NM-13	€130 per pack of 1,000
Steel NM-16	€131 per pack of 1,000
Steel NM-19	€133 per pack of 1,000

Subject to change.

*The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2022, its roughly 20,000 associates generated sales of 5.9 billion euros, about 90 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2023, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, garden tools, accessories and measuring tools.*

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 420,000 associates worldwide (as of December 31, 2022). According to preliminary figures, the company generated sales of 88.4 billion euros in 2022. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. With its more than 400 locations worldwide, the Bosch Group has been carbon neutral since the first quarter of 2020. The basis for the company's future growth is its innovative strength. At 128 locations across the globe, Bosch employs some 85,000 associates in research and development, of which nearly 44,000 are software engineers.*
