

First volume pump in the '18V Power for All System': **Bosch EasyInflate 18V-500 for leisure equipment** Added convenience for inflating large-volume objects

March 22, 2023
PI 11628 PT MR

- ▶ Cordless pump for inflating boats, paddling pools, or air mattresses
- ▶ High airflow for fast inflation and deflation
- ▶ Wide range of convenient uses thanks to three nozzles and one hose
- ▶ One battery for many applications: save space, save money, protect the environment

With the new EasyInflate 18V-500 cordless volume pump from Bosch, nothing stands in the way of a day at the lake or the next camping vacation. Large-volume sports and leisure equipment such as air mattresses, inflatable boats, paddling pools, pool toys, and exercise balls can be inflated quickly and conveniently with the EasyInflate 18V-500. The model is the first cordless volume pump in Bosch's range of cordless air pumps. While the [EasyPump](#) and [UniversalPump 18V](#) pneumatic pumps are capable of providing plenty of pressure to inflate small-volume objects such as soccer balls, bicycle tires, or car tires, volume pumps like the EasyInflate 18V-500 are designed for large-volume objects that do not require as much air pressure. The EasyInflate 18V-500 is part of the '[18V Power for All System](#)'. The '18V Power for All System' also covers all representative tools in each segment, currently comprises about 60 DIY tools, gardening tools, and home appliances, and even extends beyond the Bosch range with additional partners in the cross-brand '[Power for All Alliance](#)'. All tools – from rotary hammer to lawn mower and even vacuum cleaner – can be operated with the same 18V lithium-ion battery and only one charger. This saves users space and money and protects the environment.

Inflate and deflate objects in no time flat

Thanks to a high airflow of up to 530 liters per minute, the EasyInflate 18V-500 is capable of inflating objects such as a 2 m inflatable boat in less than two minutes. For a conventional air mattress, the cordless volume pump needs less than one minute. The pump comes with three nozzles for different valve sizes

that are easy to attach. The EasyInflate 18V-500 is as fast at deflating objects as it is at inflating them. It is also suitable for suctioning air out of vacuum bags to help save space when storing clothing or blankets.

Practical hose for convenient inflation

Compared to competitors' models, the EasyInflate 18V-500 offers users added comfort. The 50 cm hose makes inflating and deflating objects especially convenient because it eliminates the need to hold the cordless volume pump in the hand while it operates. Instead, it can simply be placed on the ground. On the tool, the hose is easily and securely fixed thanks to the locking mechanism. Due to the low weight of only 350 g without battery, users can easily transport the compact pump in the included carrying bag.

The EasyInflate 18V-500 cordless volume pump is available now. All stated prices are recommended retail prices including VAT.

Tool specifications	EasyInflate 18V-500
Battery voltage	18 V
Pressure	0.03 bar
Max. airflow	530 l/min
Hose length	50 cm
Number of nozzles	3 (small, medium, large)
Dimensions (length x width x height, without battery)	116.5 x 100 x 156 mm
Weight without/with battery (2.0 Ah)	350g/700 g
Scope of delivery/recommended retail price including VAT	<ul style="list-style-type: none">• Tool in a carton box (without battery and charger), including 3 nozzles, 1 hose, 1 carrying bag: €54.99• Tool in a carton box including 3 nozzles, 1 hose, 1 carrying bag, 1 battery (2.0 Ah), 1 charger (AL 18V-20): €94.99

Subject to change.

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2022, its roughly 20,000 associates generated sales of 5.9 billion euros, about 90 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2023, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, garden tools, accessories and measuring tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 420,000 associates worldwide (as of December 31, 2022). According to preliminary figures, the company generated sales of 88.4 billion euros in 2022. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. With its more than 400 locations worldwide, the Bosch Group has been carbon neutral since the first quarter of 2020. The basis for the company's future growth is its innovative strength. At 128 locations across the globe, Bosch employs some 85,000 associates in research and development, of which nearly 44,000 are software engineers.
