

Latest additions to the '18V Power for All System': **Two new cordless saws from Bosch for DIYers** Convenient and flexible sawing for home and garden

March 22, 2023
PI 11629 PT MR

- ▶ UniversalCirc 18V-53: Cordless hand-held circular saw for long, precise cuts
- ▶ UniversalCut 18V-65: Cordless saw for free-hand cuts with 'NanoBlade' technology
- ▶ One battery for many applications: Save space and money, protect the environment

Bosch is making life easier for DIYers with two new powerful cordless saws featuring optimized handling and intelligent ergonomics. The UniversalCirc 18V-53 hand-held circular saw is particularly suitable for long, precise cuts. The UniversalCut 18V-65 'NanoBlade' saw is engineered to make short free-hand and plunge cuts fast and effortless. Both saws are part of the ['18V Power for All System'](#), which currently comprises about 60 DIY tools, gardening tools, and home appliances. It also covers all representative tools in each segment, and even extends beyond the Bosch range with additional partners in the cross-brand ['Power for All Alliance'](#). All tools – from rotary hammer to lawn mower and even vacuum cleaner – can be operated with the same 18V lithium-ion battery and only one charger. This saves users space and money, and also protects the environment.

UniversalCirc 18V-53: precise guidance for long cuts

Thanks to its deeper cutting depth of 53 mm compared to earlier models, such as the [PKS 18 LI](#), the UniversalCirc 18V-53 cordless hand-held circular saw can be used for virtually any DIY job. Whether it is shortening slats, cutting countertops to length, or sawing through deck planks, the high-quality 'Optiline' wood saw blade – coupled with the stable steel base plate and aluminum protective guard – ensures smooth cutting progress with constant clean edges. The CutControl attachment, which comes standard, folds out to the front, and makes it possible to guide the saw precisely along the marked cutting lines. What is more, the cordless hand-held circular saw is compatible with the guide rail system from Bosch Home & Garden, so DIYers can precisely trace cutting lines. Large levers make operating the UniversalCirc 18V-53 particularly

convenient. To ensure cleanliness, the cordless hand-held circular saw features a robust aluminum protective guard for optimum shaving disposal. Attaching an external dust extractor enables more than 90 percent of shavings to be captured.

UniversalCut 18V-65: fast and flexible cuts

The new UniversalCut 18V-65 is ideal for short free-hand and plunge cuts.

The 'NanoBlade' saw with a cutting depth of 65 mm is convenient and easy to use. Thanks to improved ergonomics, users can keep both their hands on the tool during challenging tasks and maintain greater control. The low vibration 'NanoBlade' technology delivers a safe feeling in a wide range of applications, from making short correction cuts and sawing out notches to shortening cable ducts or trimming small branches. The switch on the handle allows users to flexibly adjust the saw speed during use. Thanks to the SDS system, the saw blade can quickly be replaced without using any additional tools.

The UniversalCirc 18V-53 cordless hand-held circular saw and the UniversalCut 18V-65 cordless 'NanoBlade' saw are available now. All stated prices are recommended retail prices including VAT. Accessories such as saw blades are available in the Bosch range of accessories.

Tool specifications	UniversalCirc 18V-53	UniversalCut 18V-65
Battery voltage	18 V	18 V
Cutting depth	53 mm (at 90°) 36 mm (at 45°)	65 mm
Saw blade diameter	160 mm	--
Saw blade	Optiline	NanoBlade
Cutting capacity per battery charge (at 2.5 Ah)	33 m (19 mm particleboard)	120 cuts (40 mm square-cut pine)
Speed	4,300 min ⁻¹	0 – 8,000 min ⁻¹
Tool dimensions (length x width x height)	315 x 181 x 266 mm	207 x 68 x 223 mm
Weight without/with battery (2.5 Ah)	2.9 kg / 3.3 kg	1.0 kg / 1.4 kg
Scope of delivery/recommended retail price including VAT	<ul style="list-style-type: none"> • Tool in a carton (without battery and charger), including 1 Optiline saw blade, 1 parallel guide, 1 adapter for dust extraction): €114.99 • Tool in a carton with battery (2.5 Ah) and charger (AL 18V-20), including 1 Optiline saw blade, 1 parallel guide, 1 adapter for dust extraction: €184.99 	<ul style="list-style-type: none"> • Tool in a carton (without battery and charger), including 1 Nanoblade Wood Speed 65 saw blade, 1 saw blade protective cover): €139.99 • Tool in a carton with battery (2.5 Ah) and charger (AL 18V-20), including 1 Nanoblade Wood Speed 65 saw blade, 1 saw blade protective cover: €189.99

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2022, its roughly 20,000 associates generated sales of 5.9 billion euros, about 90 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2023, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, garden tools, accessories and measuring tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 420,000 associates worldwide (as of December 31, 2022). According to preliminary figures, the company generated sales of 88.4 billion euros in 2022. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. With its more than 400 locations worldwide, the Bosch Group has been carbon neutral since the first quarter of 2020. The basis for the company's future growth is its innovative strength. At 128 locations across the globe, Bosch employs some 85,000 associates in research and development, of which nearly 44,000 are software engineers.
