

### Latest addition to the '18V Power for All System': **Compact cordless pruning saw from Bosch** Quickly and easily prune and limb branches

March 22, 2023  
PI 11632 PT MR

- ▶ EasyChain 18V-15-7: balanced and lightweight, for effortless sawing performance
- ▶ 'Syneon technology' and brushless motor for lasting strong performance
- ▶ One battery for many applications: save space and money, protect the environment

Bosch is expanding its range of cordless saws by adding a compact pruning saw for simple applications around home and garden. The new EasyChain 18V-15-7 cuts through trunks and branches up to 13 cm in diameter. That makes the handy tool suitable for pruning and trimming trees and cutting firewood to length, as well as for any kind of sawing in smaller DIY projects. The new pruning saw is part of the '[18V Power for All System](#)'. The system also covers all representative tools in each segment, currently comprises about 60 DIY tools, gardening tools, and home appliances, and even extends beyond the Bosch range with additional partners in the cross-brand '[Power for All Alliance](#)'. All tools – from rotary hammer to lawn mower and even vacuum cleaner – can be operated with the same 18V lithium-ion battery and only one charger. This saves users space and money and protects the environment.

#### **Lightweight and versatile for ease of handling**

The tool features a patented planetary gear system that combines the motor and gearbox in a compact assembly. Combined with the low weight of 1.7 kg with a 2.5 Ah battery, the EasyChain 18V-15-7 fits in the hand with good balance. As a result, it offers a level of handiness uncommon for chainsaws and allows users to work with less fatigue. Due to its ease of handling and versatility, the saw can also be used as a supplement to a large chainsaw for jobs such as pruning leafy trees or in tighter spaces. The Oregon 'SpeedCut Nano saw' chain enables low-kickback, powerful saw performance at a chain speed of up to 6.9 m/s. Thanks to the SDS system, users can change and adjust the tension on the chain easily, without any tools. With that, DIYers and garden enthusiasts can use this compact tool to easily take care of any sawing work around the house.

### Small tool, powerful performance

A brushless motor makes this powerful tool particularly efficient, durable, and low-maintenance. It delivers lasting power no matter of the charge. The basis for this is an optimum coordination of key components such as the motor and gearbox combined with an intelligent electronic control system called 'Syneon Technology'. Only Bosch offers this interaction between motor electronics and battery. With the recommended 2.5 Ah battery, the EasyChain 18V-15-7 can manage up to 150 cuts in 50 mm diameter wood.

The EasyChain 18V-15-7 cordless pruning saw will be available from August 2023 onwards. All stated prices are recommended retail prices including VAT.

Tool specifications	EasyChain 18V-15-7
Battery voltage	18 V
Motor	Brushless
Speed of cut (with 2.5 Ah)	2.5 s
Chain speed	Up to 6.95 m/s
Cuts per battery charge (with 2.5 Ah)	Up to 150 (in 50 mm diameter wood)
Blade length	15 cm
Maximum cut diameter	13 cm
Tool dimensions (length x width x height)	385 x 259 x 102 mm
Weight (with chain and chain bar) without/with battery (2.5 Ah)	1.3 kg / 1.65 kg
Scope of delivery/recommended retail price including VAT	<ul style="list-style-type: none"><li>• Tool in a carton (without battery and charger), including chainsaw oil (50 ml): €149.99</li><li>• Tool in a carton, 2.5 Ah battery and AL 1820 CV charger, including chainsaw oil (50 ml): €219.99</li></ul>

Subject to change.

*The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2022, its roughly 20,000 associates generated sales of 5.9 billion euros, about 90 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2023, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, garden tools, accessories and measuring tools.*

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 420,000 associates worldwide (as of December 31, 2022). According to preliminary figures, the company generated sales of 88.4 billion euros in 2022. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. With its more than 400 locations worldwide, the Bosch Group has been carbon neutral since the first quarter of 2020. The basis for the company's future growth is its innovative strength. At 128 locations across the globe, Bosch employs some 85,000 associates in research and development, of which nearly 44,000 are software engineers.*
