

Can do a lot and looks good – Eyes Outdoor Camera II

High-precision DualRadar security camera with wide range of lighting functions is available now

02. Juli 2024

PI 11834 HOME FB

- ▶ Intelligent motion detection: Notifies in real time and differentiates between human activity and movements of other objects.
- ▶ Convenience and security: The DualRadar sensors reliably detect motions and illuminate the property with up to 1 100 lumens.
- ▶ Award-winning camera with lamp: Individually adjustable front light, plus top and bottom lights, make the camera an attractive eye-catcher.
- ▶ No follow-up costs: Functionality can be used without a subscription and with one week's free access to the 100 most recently recorded videos.

Stuttgart – Bosch's new Smart Home Eyes Outdoor Camera II is available now. Controllable via the Bosch Smart Camera app or integrated into the Bosch Smart Home system, it provides greater security at home. Moreover, it enhances the look of any house wall with its stylish and contemporary design and has been awarded the Red Dot Best of the Best Award.

Securely smart

The Eyes Outdoor Camera II from Bosch Smart Home makes outdoor areas around your home safer and simultaneously illuminates them – and accomplishes all this with a single compact device. The built-in full HD camera constantly keeps an eye on the surroundings at a diagonal 145° angle and distinguishes between human movements and those of a neighbour's cat, for example. The masking function protects the privacy of neighbouring properties or other areas defined by the user.

Securely bright

Thanks to the DualRadar sensors, the built-in front light with up to 1 100 lumens is instantly switched on whenever a movement is detected within a 180° radius. Additional top and bottom lights can be individually switched on and off; if desired, they can be pre-set to light up in more than 1 500 different colours. All lighting options can be conveniently and individually controlled in the Bosch Smart Camera app.

Securely beautiful

Users who have a savvy sense for style and a fondness for sleek, modern design will likewise appreciate the Eyes Outdoor Camera II, which won both the Red Dot Best of the Best Award and the IF Design Award. Available in silver or anthracite metallic, this new security camera is a perfect fit for any home's façade.

Securely free of follow-up costs

To utilise the complete range of functions of the Eyes Outdoor Camera II no additional subscription is required. The 100 most recently recorded video clips are stored with access protection in the cloud for one week free of charge. If required important clips can also be saved individually. In addition the optional Cloud+ subscription provides the opportunity to extend both the storage duration and the length of the video clips.

Securely loud

The Eyes Outdoor Camera II alerts its owners of motion in front of the camera via push notification. In the event of an unwanted visitor, the alarm can be triggered with a tap in the app, which repels the intruder with flashing red lights and a piercing, 75 decibel alarm. Practical: The Eyes Outdoor Camera II can also be used as an intercom system via the Bosch Smart Home app, for example, to inform parcel services of the delivery location.

Availability and price

- Available now in Germany, Austria, Switzerland, France, Great Britain, Belgium, the Netherlands, Luxembourg, Italy, Spain, Portugal, Denmark, Sweden, Norway and Finland
- RRP in Germany: €359.95 including 19% VAT

Requirements

The Bosch Smart Camera app is required to use the Eyes Outdoor Camera II. To take advantage of additional benefits, the Bosch Smart Home app can be used to integrate the Eyes Outdoor Camera II into the Bosch Smart Home system.

Robert Bosch Smart Home GmbH was incorporated as a fully owned subsidiary of Robert Bosch GmbH. Headquartered in Stuttgart-Vaihingen, the company offers complete, intelligent consumer solutions for networked homes.

Bosch Smart Home simplifies home life by controlling routine tasks in the background. It offers greater comfort, security and energy efficiency.

More information is available at www.bosch-smarthome.com

The Bosch Group is a leading global supplier of technology and services. It employs roughly 429,000 associates worldwide (as of December 31, 2023). The company generated sales of 91.6 billion euros in 2023. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, electrification, digitalization, connectivity, and an orientation to sustainability. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in sensor technology, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture user-friendly, sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 470 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. At 136 locations across the globe, Bosch employs some 90,000 associates in research and development, of which nearly 48,000 are software engineers.

The company was set up in Stuttgart in 1886 by Robert Bosch (1861–1942) as "Workshop for Precision Mechanics and Electrical Engineering." The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant upfront investments in the safeguarding of its future. Ninety-four percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a charitable foundation. The remaining shares are held by Robert Bosch GmbH and by a corporation owned by the Bosch family. The majority of voting rights are held by Robert Bosch Industrietreuhand KG. It is entrusted with the task of safeguarding the company's long-term existence and in particular its financial independence – in line with the mission handed down in the will of the company's founder, Robert Bosch.
