

New from Bosch in the '18V Power for All System': **Cordless low pressure cleaner for mobile cleaning** Fontus 18V-6 Bike Cleaner with integrated water tank

December 2024
PI 11904 PT MR

- ▶ Lightweight and compact design for mobile use
- ▶ Two pressure modes and four spray patterns for cleaning bikes and outdoor equipment
- ▶ One battery for many applications: save space and money, protect the environment

Conveniently cleaning your bike or outdoor equipment on-the-go before loading it into your car: With the new Fontus 18V-6 Bike Cleaner cordless low pressure washer from Bosch, this can be done easily. The compact tool is part of the ['18V Power for All System'](#) which also covers all representative tools in each segment, currently comprises about 80 DIY tools, gardening tools, and home appliances, and even extends beyond the Bosch range with additional partners in the cross-brand ['Power for All Alliance.'](#) All tools – from rotary hammer to lawn mower and even vacuum cleaner – can be operated with the same 18V lithium-ion battery and only one charger. This saves users space and money and protects the environment.

Mobile bike cleaning made easy

Bike enthusiasts as well as hobby cyclists benefit from the compact design of the Fontus 18V-6 Bike Cleaner as it makes cleaning on-the-go an easy thing. With its integrated 6l tank, it contains sufficient water to get rid of both light and tough dirt. Therefore, it can be used anywhere without looking for a water or electricity source. For convenient carrying, the hose and gun are stored on the tool. Compared to the existing [Fontus 18V](#), the Bike Cleaner is more compact and lightweight and therefore dedicated for usage on-the-go.

Multiple settings against mud and dirt

The Fontus 18V-6 Bike Cleaner has a pressure range from 2 to 20 bar and is categorized as a low pressure washer. Users can choose between normal and eco pressure mode, ensuring optimal cleaning power for various applications.

Normal mode, with up to a 20 bar rated pressure, is made for durable surfaces, while eco mode, with less than 5 bar, is ideal for more sensitive bike components. To make sure that every spot can be reached and cleaned thoroughly, the Fontus 18V-6 Bike Cleaner has four different spray patterns: Shower, wide (50°) and narrow (15°) fan jet as well as an angled fan jet. By adjusting pressure and fan settings, users can not only use the tool to clean bikes, but also camping and outdoor equipment, dirty footwear, or to rinse dirty pet claws.

With the tool comes a claw brush which helps to remove stubborn dirt from bikes. A detergent nozzle to extend use cases, e.g., for spraying detergent foam or fertilizer, is separately available.

The Fontus 18V-6 Bike Cleaner will be available from December 2024 onwards in specialist bike shops. All prices are recommended retail prices including VAT.

Tool specifications	Fontus 18V-6 Bike Cleaner
Battery voltage	18 V
Water tank size	6 l
Flowrate	1.2 – 2.2 l/min
Pressure range	2-20 bar

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2023, its roughly 19,500 associates generated sales of 5.6 billion euros, about 90 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2024, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, outdoor and garden tools, accessories and measuring tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 429,000 associates worldwide (as of December 31, 2023). The company generated sales of 91.6 billion euros in 2023. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, electrification, digitalization, connectivity, and an orientation to sustainability. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in sensor technology, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture user-friendly, sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 470 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. At 136 locations across the globe, Bosch employs some 90,000 associates in research and development, of which nearly 48,000 are software engineers.
