

A new boost for the “18V Power for All System” for DIYers: **Powerful cordless impact wrench from Bosch** Ideal for simple tire changes and timber construction

February 2025
PI 11936 PT MR

- ▶ UniversallImpactDrive 18V-350: a lightweight powerhouse for effortless screwing
- ▶ Robust tool offers high performance with brushless motor
- ▶ One battery for many applications: Save space and money, protect the environment

Changing the tires on your vehicle or driving long screws into hard squared timber – when building a carport, wooden terrace, or a garden swing, for instance – is now a whole lot easier with the UniversallImpactDrive 18V-350 from Bosch. This is the first cordless impact wrench with square drive in the DIY range and, thanks to its high loosening torque of 560 Nm, can even loosen tight wheel nuts and corroded screws. The new impact wrench is part of the [‘18V Power for All System’](#) which also covers all representative tools in each segment, currently comprises about 80 DIY tools, gardening tools, and home appliances, and even extends beyond the Bosch range with additional partners in the cross-brand [‘Power for All Alliance’](#). All tools – from rotary hammer to lawn mower and even vacuum cleaner – can be operated with the same 18V lithium-ion battery and only one charger. This saves users space and money and protects the environment.

Light, balanced, versatile

With an unladen weight of just over 1 kg, the UniversallImpactDrive 18V-350 is one of the lightest products of its kind in the market. It is therefore easier to accomplish difficult jobs, especially working overhead. The cordless impact wrench offers powerful performance at up to 3,400 impacts per minute, effortlessly tightening screws up to 10 mm in diameter and up to 140 mm long. With the attached battery – Bosch recommends a battery of at least 2.5 Ah – it feels well-balanced in the hand. The balanced weight distribution has a positive effect on operating safety, as does the impact mechanism, which transfers the force and rotational movement directly to the screw, thus protecting the user’s wrist.

The UniversallImpactDrive 18V-350 is versatile: it features a standard square drive, and with the included adapter, hex bits can also be attached. Three settings allow for quick and convenient adjustment of speed, torque, and impact rate at the push of a button, making it easy to adapt to various applications.

Robust and powerful thanks to the brushless motor

Thanks to its efficient performance, the durable brushless motor generates a loosening torque of 560 Nm and up to 350 Nm of tightening torque – enough to handle demanding tasks in the home and garden. If you want to fit a tire, for instance, you can set the torque of the UniversallImpactDrive 18V-350 to level 1 (which corresponds to 85 Nm) at the touch of a button, tighten the tire quickly and easily, and fine-tune the last few turns with a manual torque wrench. This saves an enormous amount of time. The tool also offers fast and fatigue-free working, such as when assembling heavy shelves in a garage or workshop. The integrated LED light also helps in poor lighting conditions.

The UniversallImpactDrive 18V-350 cordless impact wrench is now available for purchase. All stated prices are recommended retail prices and include VAT.

Tool specifications	UniversallImpactDrive 18V-350
Battery voltage	18 V
Motor	Brushless
Max. torque / torque settings	350 Nm / 3
Max. tightening torques levels 1 to 3	85 / 200 / 350 Nm
Max. loosening torque	560 Nm
No-load speed levels 1 to 3	0–1,200/0–1,700/0–2,300 rpm
Impact rate levels 1 to 3	0–1,800/0–2,600/0–3,400 bpm
Tool holder	1/2" square, impact bit adapter to 1/4" hex included
Screw diameter	M10 – M18
Tool dimensions (length x width x height)	136 x 65 x 212 mm
Weight without / with 2.5 Ah battery	1.07 kg / 1.47 kg
Scope of delivery / recommended retail price including VAT	<ul style="list-style-type: none"> • Tool in box (without battery and charger), including impact bit adapter to 1/4" hex: €129.99 • Tool in box (without battery and charger), including impact bit adapter to 1/4" hex and socket set (sizes 17, 19, 21 mm): €149.99

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2023, its roughly 19,500 associates generated sales of 5.6 billion euros, about 90 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2024, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, outdoor and garden tools, accessories and measuring tools.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 417,900 associates worldwide (as of December 31, 2024). According to preliminary figures, the company generated sales of 90.5 billion euros in 2024. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, electrification, digitalization, connectivity, and an orientation to sustainability. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in sensor technology, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture user-friendly, sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 470 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. At 136 locations across the globe, Bosch employs some 86,900 associates in research and development, of which nearly 48,000 are software engineers.
