

### New addition to the Bosch Professional 18V System: **Mobile cordless table saw with large cutting height** High precision for versatile wood applications

September, 2025  
PI12005PT MR

- ▶ Exceptionally high cutting height, optimum mobility, and increased carrying comfort
- ▶ Precise cuts thanks to rack-guided rip fence and angle fence that locks into the most important angles
- ▶ Tool-free adjustment of the saw blade for angled cuts from -2 degree to 47 degree

Bosch is expanding its Professional 18V range with the powerful GTS 18V-70 Professional. This innovative cordless table saw has been specially developed for tradespeople who need optimum mobility without compromising on cutting performance and precision. The [Professional 18V System](#) also covers all other major 18-volt applications – and even goes beyond the Bosch range thanks to multiple partners in the multi-brand [AmpShare alliance](#): All tools – from the compact screwdriver to the miter saw – can be operated using the same 18V lithium-ion battery and only one charger. This saves tradespeople time, space, and money.

#### **Best in class – Mobility and precision in use**

The GTS 18V-70 Professional offers the perfect solution for tradespeople who frequently have to change their workplace and need an easily transportable circular table saw with high cutting performance. With a cutting height of 70 mm, the device is the best saw in its class and enables parallel cuts of up to 635 mm. The cordless circular table saw is the ideal choice for cutting rafters, beams, and board material, as well as installing profiles or laying flooring. With a reduced weight of around 21 kg (without battery), a compact design and its one-hand carry design, the saw is ideally suited for mobile applications and frequently changing work sites. The GTS 18V-70 Professional enables extremely precise cuts thanks to the rack-guided rip fence and the precise angle fence that locks into the most important angles. In addition, the tool-free adjustment of the saw blade allows angle cuts from -2° to 47°, and the tool-free riving knife enables

quick adjustment for concealed cuts. The cordless tool's brushless motor delivers the full power of a corded circular table saw. Thanks to the powerful rechargeable batteries, mobile working and complete freedom of movement at the workplace and on any construction site are guaranteed. Bosch recommends the new EXPERT batteries from EXBA18V-40 with 4.0 Ah for use with the GTS 18V-70 Professional.

### **Less dust when working indoors**

Good dust extraction is crucial when working indoors. The GTS 18V-70 Professional has two Click & Clean connections that allow dust extractors to be installed quickly and easily, thus ensuring increased user protection and lower dusts levels in the work area. The cordless table saw has an innovative braking system that stops the saw blade quickly. The spindle lock allows the saw blade to be changed quickly and easily. Thanks to a slot in the rip fence, a spring comb can also be fitted to protect against kickback. The integrated soft start prevents unwanted jerky starts, protecting the brushless motor and the battery.

You can find the table of characteristic values for the tool in the PDF, see "download". Subject to change. The prices are recommended retail prices plus VAT.

<b>Tool specifications</b>	<b>GTS 18V-70 Professional</b>
Battery voltage	18V
Motor	Brushless Motor
Weight	21.2 kg (without battery)
Dimensions (W x L x H)	608 x 593 x 329 mm
Saw blade diameter	216 mm
Max. cutting height 90°	70 mm
Max. cutting capacity, right	635 mm
Tilt adjustment	-2° – 47°
Idle speed	5,500 min <sup>-1</sup>
Scope of delivery/recommended retail price excluding VAT	Protective cover with dust extraction adapter; Hex key; Spanner wrench; Parallel guide; Angle guide; 1 x Cordless Saw Blade Standard for Wood; Push stick; Profile rail RRP: €880

*The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2024, its 18,700 associates generated sales\* of 5.1 billion euros, about 90 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2025, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, outdoor and garden tools, accessories and measuring tools.*

*\*Due to a change in the allocation of sales within the Bosch Group, certain revenues from Bosch Power Tools will be accounted for differently in the future. As a result, sales in this division appear to have fallen significantly compared to the previous year, although there was no actual change in economic performance in this regard.*

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 418,000 associates worldwide (as of December 31, 2024). The company generated sales of 90.3 billion euros in 2024. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, electrification, digitalization, connectivity, and an orientation to sustainability. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in sensor technology, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture user-friendly, sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 490 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. At 136 locations across the globe, Bosch employs some 87,000 associates in research and development.*
