

New in Bosch's top performance class:  
**Cordless random orbit sander for outstanding material removal rates and highest surface quality**  
Fast work process thanks to high eccentricity.

September, 2025  
PI12006 PT MR

- ▶ Eccentricity and a large sanding disc ensure high removal rates and fast work progress.
- ▶ Ergonomic design and low installation height offer optimum control in all working positions.
- ▶ Robust dust collection container with HEPA filter for fine dust.

Bosch is expanding its top performance class Expert with the new cordless random orbit sander EXPERT EXEX18V-150-5, which has been developed for outstanding removal rates and the highest surface quality. The random orbit sander is part of [Bosch's top performance class Expert](#) which provides demanding professionals with power tools, measuring technology and accessories for the highest requirements. The EXPERT EXEX18V-150-5 is also part of the "[Professional 18V System](#)" from Bosch, which covers all relevant applications with 18 volts and even goes beyond the Bosch range thanks to multiple partners in the multi-brand [AmpShare alliance](#): All tools – from the compact screwdriver to the miter saw – can be operated using the same 18V lithium-ion battery and only one charger. This saves time, space, and money.

### **Cordless random orbit sander with high eccentricity**

The EXPERT EXEX18V-150-5 is part of Bosch's top performance class Expert, delivering up to 50% more material removal than the GEX 18V-150-3 Professional<sup>1</sup> and thus enables professionals to achieve significantly faster work progress and an additional boost in efficiency. The core of this performance is the eccentricity of 5 mm in combination with a 150 mm sanding disc and constant power output under load. This makes the EXPERT EXEX18V-150-5 the ideal tool for all demanding sanding work, resulting in a high surface quality.

### **Ergonomic design meets first-class dust control**

The ergonomic design of the random orbit sander enables comfortable one-handed or two-handed use. This option to change position is particularly advantageous for longer work tasks. The balanced and slimline design with the handle close to the workpiece ensures optimum control in all working positions, which simultaneously increases precision and reduces possible signs of fatigue. The multi-hole sanding disc with innovative Venturi air ducts, an efficient dust box with HEPA filter, and integrated adapter for the Click & Clean interface ensures first-class dust control. This reduces the dangers of dust for the user, protects the workpiece from scratches caused by dust particles, and extends the service life of the sanding sheet. The EXPERT EXEX18V-150-5 is very easy and intuitive to use thanks to its user-friendly control panel. It offers a 5-stage speed setting that enables precise adjustment to the respective material and application. A clear 5-LED display also shows the current battery charge status at all times, so that the user is always informed about the remaining runtime and interruptions to work can be minimized. The EXPERT EXEX18V-150-5 is ideal for sanding wood, paint and varnish, as well as for intermediate and fine sanding of surfaces.

The EXPERT EXEX18V-150-5 is available in January 2026. All prices are recommended retail prices and do not include VAT.

<sup>1</sup>vs. Professional GEX 18V-150-3, internal test in dry pine wood, constant tool pressure of 20 N, new sanding sheet, fully charged battery

<b>Tool specifications</b>	<b>EXPERT EXEX18V-150-5</b>
Battery voltage	18V
Motor	EC
Disc size	150 mm
Eccentricity	5 mm
Idle speed	5,000 – 10,000
Weight without battery and accessories	1.2 kg
Sound pressure level	79 dB(A)
Vibration	2.0 m/s <sup>2</sup>
Scope of delivery (L-Boxx)	EXPERT EXEX18V-150-5, HEPA dust box, L-Boxx, 1x sanding sheet 078O 150 mm 120 grit
UCP incl. VAT	€441.50

*The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2024, its 18,700 associates generated sales\* of 5.1 billion euros, about 90 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2025, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, outdoor and garden tools, accessories and measuring tools.*

*\*Due to a change in the allocation of sales within the Bosch Group, certain revenues from Bosch Power Tools will be accounted for differently in the future. As a result, sales in this division appear to have fallen significantly compared to the previous year, although there was no actual change in economic performance in this regard.*

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 418,000 associates worldwide (as of December 31, 2024). The company generated sales of 90.3 billion euros in 2024. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, electrification, digitalization, connectivity, and an orientation to sustainability. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in sensor technology, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture user-friendly, sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 490 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. At 136 locations across the globe, Bosch employs some 87,000 associates in research and development.*
