

New in Bosch's Top Performance Class Expert: **Three Cordless Angle Grinders for Demanding Pros** Cordless Freedom, Top Performance and Precision

April 22, 2026
PI 12073 PT MR

- ▶ First cordless 230-millimeter angle grinder with top performance
- ▶ Extreme cutting depth of a large tool in a compact design
- ▶ Powerful and compact cordless angle grinder for versatile use

Bosch expands its top-performance class Expert with three new angle grinders: the EXPERT EXWS18V2-230P, the EXPERT EXWS18V-180P, and the EXPERT EXWS18V-15S, which is also available as the X-Lock variant, EXPERT EXWX18V-15S. All three cordless angle grinders belong to Bosch's [Top-performance Expert class](#), which provides professionals with power tools, measuring technology, and accessories for the highest demands. These cordless power tools are also part of Bosch's '[Professional 18V System](#)', which covers all relevant 18-volt applications and, thanks to the [Multi-brand AmpShare alliance](#), even extends beyond Bosch's own offering. Many brands, many tools, one battery system: All tools – from compact screwdrivers to miter saws – can be operated with one and the same 18-volt lithium-ion battery and a single charger.

EXWS18V2-230P: Powerful, ergonomic, and with high cutting depth

As the first cordless large angle grinder from Bosch with a 230-mm disc, the EXPERT EXWS18V2-230P redefines performance and handling in its class. For exceptionally fast and efficient work, it delivers superior performance equivalent to corded 2,700-watt angle grinders.

This immense power is achieved through modern Biturbo technology, which includes a brushless 2x 18-volt high-performance motor and a drive system specifically designed to fully utilize the extreme power of Bosch Expert batteries. This enormous power is complemented by outstanding ergonomics and tool control: The perfectly balanced design with an ideal center of gravity, achieved by intelligently positioning the batteries directly under the tool, ensures fatigue-free work and precise guidance in every application. The motor housing,

rotatable by 2x 90-degrees, further improves handling by enabling an ideal and comfortable grip position for all cutting and grinding tasks, whether for left- or right-handed users. Thanks to its high performance and clever design, this large cordless angle grinder offers an exceptionally high cutting depth of 75 mm. For high user protection, the EXPERT EXWS18V2-230P is equipped with various functions, such as Kickback Control for immediate motor shutdown if the disc jams, a Protection Switch for instant shutdown when the switch is released, and an intelligent braking function for a quick stop of the accessory. For working at heights (e.g., on scaffolding), a lanyard attachment point on the device allows for the installation of fall protection. Furthermore, the metal cutting guard clip offers additional user protection in the event of a bursting disc.

EXWS18V-180P – Compact and powerful with high cutting depth

The EXPERT EXWS18V-180P redefines compactness in angle grinders, offering the extreme cutting depth of a large 230-mm angle grinder in the handy size and low weight of a small angle grinder. This innovative combination of power and compactness enables efficient work.

The device is also powered by a brushless Biturbo high-performance motor, whose drive system is specially designed to fully utilize the extreme power of Expert batteries. This ensures strong performance equivalent to up to 1,500-watts of corded power, guaranteeing rapid work progress in all cutting applications.

The superior design of the EXPERT EXWS18V-180P, featuring a gearbox head pre-rotated by 90 degrees, ensures optimal handling and control, especially in demanding cutting applications. High user protection is also a core focus on this device. The angle grinder is equipped with Kickback Control, a Protection Switch, intelligent braking function, and restart protection. Furthermore, the metal cutting guard clip also offers additional protection in the event of a bursting disc.

EXWS18V-15S – Powerful and compact for versatile use

The EXPERT EXWS18V-15S sets new benchmarks for small cordless angle grinders, delivering superior performance equivalent to 1,500-watts of corded power. Driven by a brushless Biturbo high-performance motor, this tool is specifically engineered to fully exploit the extreme energy of Bosch Expert batteries, thus ensuring consistently high output. Its robust metal flange protects the gearbox from wear, ensuring a long product lifespan.

Beyond its impressive performance, the EXPERT EXWS18V-15S offers high user protection and optimal control, including the intelligent braking function, Kickback Control to minimize the risk of injury from a jammed disc, Drop Control, restart protection, and a soft start. Additionally, the tool is available as the EXPERT EXWS18V 15PS in a variant with a paddle switch. This switch ensures the angle grinder is immediately shut off upon release.

The ergonomic design with a slim grip makes working comfortable, and the anti-vibration function in the handle significantly reduces fatigue during prolonged use.

Both tools are also available in the X-Lock variant as EXPERT EXWX18V 15S and EXPERT EXWX18V 15PS. The X-Lock variants also offer the aforementioned functions and, thanks to the X-Lock feature, additionally allow for a tool-free disc change with just one click – fast and easy.

The angle grinders EXPERT EXWS18V2-230P, EXPERT EXWS18V-180P, EXPERT EXWS18V-15S, and EXPERT EXWX18V-15S are available now. The angle grinders EXPERT EXWS18V 15PS and EXPERT EXWX18V 15PS will be available from May 2026. Prices are recommended retail prices excluding VAT.

Technical Specification	EXPERT EXWS18V2-230P
Battery Voltage	2 x 18V
Motor	Brushless Biturbo High-Performance Motor
Equivalent Corded Power	2,700W
No-load Speed	5,000 min ⁻¹ (RPM)
Disc Diameter	230mm
Cutting Depth	75mm
Weight (without battery)	4.2kg
Scope of delivery / Recommended retail price (RRP) excluding VAT	XL-Boxx 232, SDS-clic nut, Vibration Control auxiliary handle, Metal cutting guard; 555€

Technical Specification	EXPERT EXWS18V-180P
Battery Voltage	18V
Motor	Brushless Biturbo High-Performance Motor
Equivalent Corded Power	1,500W
No-load Speed	6,100 min ⁻¹ (RPM)
Disc Diameter	180mm
Cutting Depth	61mm
Weight (without battery)	2.8kg
Scope of delivery / Recommended retail price (RRP) excluding VAT	L-Boxx 238, Two-hole nut, Vibration Control auxiliary handle, Metal cutting guard. 385€

Technical Specification	EXPERT EXWS18V-15S, EXPERT EXWX18V-15S
Battery Voltage	18V
Motor	Brushless Biturbo High-Performance Motor
Equivalent Corded Power	1,500W
No-load Speed	11,000 min ⁻¹ (RPM)
Disc Diameter	125 mm
Cutting Depth	33 mm
Weight (without battery)	2.2 kg
Scope of delivery / Recommended retail price (RRP) excluding VAT	L-Boxx 136, Keyless nut (EXWS), Vibration Control auxiliary handle, Metal cutting guard; 375€ (EXWS) // 395€ (EXWX)

Technical Specification	EXPERT EXWS18V-15PS, EXPERT EXWX18V-15PS
Battery Voltage	18V
Motor	Brushless Biturbo High-Performance Motor
Equivalent Corded Power	1,500W
Enhanced User Protection	Protection Switch
No-load Speed	11,000 min ⁻¹ (RPM)
Disc Diameter	125 mm
Cutting Depth	33 mm
Weight (without battery)	2.2 kg
Scope of delivery / Recommended retail price (RRP) excluding VAT	L-Boxx 136, Keyless nut (EXWS), Vibration Control auxiliary handle, Metal cutting guard; 385€ (EXWS) // 405€ (EXWX)

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2025, its 17,300 associates generated sales approximately 5 billion euros, about 80 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 413,000 associates worldwide (as of December 31, 2025). The company generated sales of 91 billion euros in 2025. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, digitalization, electrification, and artificial intelligence. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in hardware, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture intelligent, user-friendly, and sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 500 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. Bosch employs some 82,000 associates in research and development.
