

Bosch Expands Top-Performance Expert Class: **Two Powerful Saws for Professional Woodworking** Maximum Precision and Cutting Capacity

April 22, 2026
PI 12074 PT MR

- ▶ Two new, powerful saws for demanding professionals
- ▶ Miter Saw with Compact Glide System
- ▶ Table Saw with sliding table and best-in-class cutting height

Bosch is expanding its top-performance class Expert with two new saws for professional woodworking: the EXPERT EXCM341-305GD Miter Saw with an innovative Compact Glide System and the EXPERT EXTS100-254X Table Saw with a precise sliding table for large-format crosscuts and the best-in-class cutting height. Both saws belong to Bosch's [top-performance class Expert](#), which provides professionals with power tools, measuring technology, and accessories for the highest demands.

EXCM341-305GD: Miter Saw with Compact Glide System

The EXPERT EXCM341-305GD was specifically developed for professionals who need to work precisely in confined spaces. The patented Compact Glide System enables ultra-smooth cutting without requiring any space behind the saw. Unlike conventional miter saws with a pull function, the EXPERT EXCM341-305GD can be placed directly against a wall – ideal for cramped construction sites and workshops. Despite its compact design, the saw impresses with extraordinary cutting capacity: cross-cuts up to 120 x 240 mm or 105 x 341 mm for large-format cuts. For baseboards, it offers an additional capacity of 177 x 20 mm. The high-performance dust extraction ensures a high capture rate, providing a clean work area, better visibility and increased user protection. For maximum productivity, quick miter and bevel angle adjustments, an integrated material clamp, and tool-free saw blade changes enable efficient work. The integrated LED job light system also provides adjustment-free cutting line indication.

EXTS100-254X: Table Saw with Best-in-Class Cutting Height

The EXPERT EXTS100-254X sets new standards for carpenters, joiners, and exhibition stand builders. With an outstanding cutting height of 100 mm, the complicated turning of heavy workpieces is eliminated – a single cut is sufficient here. The powerful 2,200-watt motor delivers consistent performance even with the thickest woods.

The precise ball-bearing sliding carriage enables smooth gliding movements. With Expert saw blades from Bosch, cross-cuts up to 580 mm at a height of 22 mm are possible. For rip cuts, the precise rack-and-pinion guided parallel fence ensures exact cuts up to 825 mm. The table extension included in the delivery ensures quick and uncomplicated extension of the work surface for long workpieces. Furthermore, the Expert class saw blades guarantee clean cuts and a long service life. Tool-free bevel cuts from 0° to -2° and 45° to 47° with automatic resetting to standard angles ensure efficient work.

The robust construction with two dust ports, soft start, quick braking system, and feather board compatibility ensures a consistently clean work area and thus high user protection.

The EXPERT EXCM341-305GD Miter Saw and the EXPERT EXTS100-254X Table Saw will be available from May 2026. Prices are recommended retail prices excluding VAT.

Technical Specifications	EXPERT EXCM341-305GD
Rated input power	2000 W
No-load speed	3100-4000 min-1
Tool dimensions (width x length x height)	660 x 846 x 738 mm
Saw blade diameter	305 mm
Cutting capacity 0° / 0°	105 x 341 / 120* x 240
Cutting capacity 0° / 45° for baseboards	177 x 20
Miter setting L/R	52 / 60°
Bevel setting L/R	47 / 47°
Net weight incl. delivery contents	30.5 kg
Scope of delivery/Recommended retail price plus VAT	Dust bag 1 x circular saw blade, 305 Expert 1 x Quick Material Clamp Angle finder €1140

*with spacer

Technical Specifications	EXPERT EXTS100-254X
Rated input power: 2200 W	2200 W
Tool dimensions (width x length x height)	713 x 747 x 363 mm
Saw blade diameter	254 mm
Cutting height 90° / 45°	100 mm / 68 mm
Bevel setting L/R	47° / -2°
Max. cross cuts / rip cuts	580mm / 825mm
Net weight incl. delivery contents	34.8 kg
Scope of delivery/Recommended retail price plus VAT	1 x expert circular saw blade, EX WO T 254x30-32, Miter gauge, Push stick, Dust extraction adapter, Ring spanner, Protective cover with dust extraction adapter, Profile rail, Hex key, Parallel guide: € 1080

Subject to change.

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2025, its 17,300 associates generated sales approximately 5 billion euros, about 80 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 413,000 associates worldwide (as of December 31, 2025). The company generated sales of 91 billion euros in 2025. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, digitalization, electrification, and artificial intelligence. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in hardware, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture intelligent, user-friendly, and sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 500 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. Bosch employs some 82,000 associates in research and development.
