

New in the "18V Power for All System" from Bosch: **EasyMoka: Coffee On The Go Perfection** Freshly brewed for hobbyists, camping, and gardening

April 22, 2026
PI 12078 PT MR

- ▶ Sensor-based temperature control for optimal coffee flavor
- ▶ 90 ml capacity for 2 cups in under 4 minutes
- ▶ Automatic shut-off, overheating and boil-dry protection

With the new battery-powered espresso maker EasyMoka 18V-2 Inox, Bosch introduces a mobile coffee machine for authentic Italian coffee enjoyment – independent of any power outlet and completely flexible for on the go, camping, or in the garden. This compact device combines proven brewing tradition with state-of-the-art sensor technology and is also part of the "[18V Power for All System](#)." This system covers all representative tools in each segment with approximately 80 DIY tools, gardening tools, and home appliances – and even extends beyond the Bosch range thanks with additional partners in the cross-brand "[Power for All Alliance](#)." All tools – from rotary hammers to lawnmowers and vacuum cleaners – can be operated with one and the same 18V lithium-ion battery and just one charger. This saves users space and money.

Bosch Delivers Smart Technology for Perfect Coffee Taste

Thanks to sensor-based temperature control, the EasyMoka 18V-2 Inox guarantees optimal coffee flavor. Intelligent technology continuously monitors the brewing process and precisely controls the temperature, ensuring that water is always pressed through the coffee powder at the ideal temperature. This way, the coffee develops its full aroma without unwanted bitter notes or burnt taste.

Per brewing cycle, the EasyMoka 18V-2 Inox delivers 90 ml of fresh coffee – exactly right for two espresso cups. The brewing process takes less than four minutes, and the practical 360-degree swivel base of the EasyMoka allows for effortless placement and removal of the pot from any position.

The EasyMoka 18V-2 Inox is made of high-quality, food-grade stainless steel. This material is particularly robust and durable – perfect for purists who value full-

bodied coffee enjoyment and elegant aesthetics. Various functions, such as automatic shut-off, overheating protection, dry-run protection, and an integrated safety valve, guarantee smooth operation and carefree enjoyment. Replacement sealing rings, filters, and sieves are available for the EasyMoka 18V-2 Inox.

The EasyMoka 18V-2 Inox will be available from May 2026. All prices are recommended retail prices including VAT.

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2025, its 17,300 associates generated sales approximately 5 billion euros, about 80 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 413,000 associates worldwide (as of December 31, 2025). The company generated sales of 91 billion euros in 2025. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, digitalization, electrification, and artificial intelligence. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in hardware, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture intelligent, user-friendly, and sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 500 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. Bosch employs some 82,000 associates in research and development.
