

Bosch expands product line for everyday use: **Daily Helper: small tools, big impact** Quick battery swap for all devices in the series

April 22, 2026
PI 12079 PT MR

- ▶ Compact everyday helpers for daily tasks
- ▶ Versatile and intuitive thanks to easy handling
- ▶ High flexibility with compatible interchangeable batteries for all Daily Helpers

With the Daily Helper product line, Bosch presents intuitive and small power tools that simplify life in and around the house. The handy helpers are designed for everyday tasks and impress with their compactness, versatility and ease of use. Four classics among the everyday helpers are: the Ixo, Bosch's iconic screwdriver in its eighth generation, the PSR Select cordless screwdriver, the Taydo cordless cleaning brush and the Pneo cordless air pump. These Daily Helpers now run on the Bosch BA 4V slide-in battery, designed for easy insertion into all 4V Daily Helpers. Choose from two capacities: 2.0 Ah and 3.0 Ah. For added convenience, an integrated USB charging function directly within the tool allows for effortless charging.

Ixo: The iconic screwdriver in its eighth generation

Small screwdriver, big impact: The Ixo is back and now gets even more out of all DIYers' project. The eighth generation of the iconic screwdriver shines with an impressive maximum torque of 6.5 newton meters thanks to a powerful motor. This makes assembling ready-to-assemble furniture or the next creative project even easier. A screwdriver for all occasions: The 360-degree LED light ring ensures a consistently clear and shadow-free view when screwing, even at dusk or in dark corners, while the Ixo always fits well in the hand thanks to its ergonomic shape and extensive soft grip.

The Ixo's application possibilities are as diverse as DIY enthusiasts and their projects. The Ixo collection offers a wide range of attachments for drilling, cutting and screwing, as well as for use as a barbecue blower, corkscrew or spice grinder. The intuitive cap concept makes switching between attachments very simple.

The new Ixo generation utilizes recycled plastic. The Ixo product housing (all externally visible components excluding accessories) consists of over 25 percent recycled plastic, and the storage box (all parts forming the storage case, including hinges, inserts, foam, and trays) consists of over 90 percent recycled plastic, all while maintaining the accustomed stability and robustness for all applications.

Taydo: Cordless cleaning brush for stubborn dirt

The multifunctional Taydo cordless cleaning brush enables effortless cleaning even more efficient and more thorough. Its particular strength: The rotating brush continues to rotate even at higher pressure, thus masters even extremely dirty surfaces –such as lime scale on tiles, car wheel rims or burnt food on a barbecue grill.

Thanks to IPX5 splash water protection, the Taydo is also suitable for wet applications. Various attachments and pads cover a wide range of cleaning tasks: A detail brush reaches hard-to-access areas such as corners or window profiles, while heavy-duty and microfiber pads remove stubborn deposits or gently clean sensitive surfaces as needed. The attachments are changed by means of a simple click system, and the pads can be easily attached to the pad holder with Velcro.

Five accessories are included in the delivery: brush, detail brush, pad holder as well as a heavy-duty and a microfiber pad. Additional accessories such as kitchen, melamine or polishing pads are available separately. Once the work is done, the Taydo can be cleaned quickly and briefly under running water – all attachments and pads can be of course reused and are dishwasher-safe up to a temperature of 50° Celsius.

Pneo: The handy air pump for mobility, leisure and sport

The compact, versatile and powerful Pneo cordless air pump is the portable solution for inflating at home and on the road.

Thanks to its ergonomic design with a very narrow handle, the cordless pneumatic pump fits comfortably in the hand and is ready to use immediately. The Pneo shows its true strength in its versatility: it is suitable for inflating bicycle, car or motorcycle tires just as effortlessly as footballs, basketballs or swimming accessories. With a maximum pressure of 10.3 bar (150 PSI), it is well equipped even for racing bike tires that require particularly high pressure.

The preset and auto-stop function makes precise inflation very simple. Simply select the target pressure and the Pneo automatically switches off when the target value is reached. For recurring applications, up to three additional individual pressure values can be saved via the memory function and retrieved directly. Versatility is achieved through the cleverly integrated accessory compartment in the handle. The most important attachments – ball needle,

adapter for French valves (Presta/Sclaverand) and a volume attachment – are neatly always stored there and accessible.

Thanks to its compact length of only 215 mm, the PNEO is the ideal companion for on the go. The durable, textile-covered air hose protects against damage and can rotate 360° for maximum flexibility. In combination with the included quick-release clamp, operation at tight or hard-to-reach valves is significantly facilitated.

PSR Select: The right bit, always at hand

The time-consuming search for the right bit is over: The new PSR Select cordless screwdriver makes every day screwing work more convenient than ever before. Thanks to its integrated bit drum, which contains the twelve most common screwdriver bits, these are always within reach and changed in no time. Perfect for quick furniture assembly and all everyday screwing projects.

The heart of the PSR Select is the innovative Bosch EasySelect function. By simply turning the drum, the desired bit is selected – clearly visible through an illuminated and magnifying viewing window. This clever detail significantly speeds up and simplifies work.

With a powerful torque of 7.5 newton meters, the new motor delivers noticeably more power for effortless screwing. At the same time, the integrated PowerLight LED provides good illumination of the work area, even in dark or hard-to-reach places. Thanks to its compact and ergonomic design, the PSR Select fits perfectly in the hand and can be easily stored in any workshop or kitchen drawer.

The Ixo in its eighth generation, the Taydo, the Pneo and the PSR Select, will be available from May 2026. All prices are non-binding recommended prices including current VAT.

Technical Specifications	Ixo (8. generation)
Battery voltage/capacity	3,6 V Lithium-Ion / replacable 2,0 Ah battery
No-load speed	215 min-1
Max. Torque	6,5 Nm
Max. Screw Diameter	5 mm
Charging	USB / < 3 h
Dimensions (Length x Height x Width)	151 x 46 x 120 mm
Weight (incl. 2.0 Ah battery)	350 g
Scope of Delivery/ Recommended Retail Price including VAT	Basic Edition in storage box incl. 10- piece standard bit set/ €49.99 As a set in storage box incl. 10-piece standard bit set, eccentric and angle attachments/ €79.99

Technical Specifications	Taydo
Battery voltage/capacity	3,6 V Lithium-Ion / replaceable 2,0 Ah battery
Rotational Speed	270 min-1
IP Protection	IP X5 (Jet water protected from all directions)
Charging	USB / < 3 h
Dimensions (Length x Height x Width)	144 x 46 x 114 mm
Weight without attachments	320 g
Scope of Delivery/ Recommended Retail Price including VAT	<p>Device with brush, detail brush, pad holder with hook-and-loop fastener, abrasive heavy-duty pad, and non-abrasive microfiber pad/ €49.99</p> <p>Available Accessories:</p> <ul style="list-style-type: none"> Brush: €9.99/piece Soft Brush: €9.99/piece Detail Brush: €9.99/piece Pad Holder: €9.99/piece Heavy-duty Pad: €9.99/3 pieces Microfiber Pad: €9.99/3 pieces Kitchen Pad: €9.99/3 pieces Melamine Pad: €9.99/3 pieces Polishing Pad: €9.99/3 pieces

Technical Specifications	Pneo
Battery voltage/capacity	3,6 V Lithium-Ion / replacable 3,0 Ah battery
Max. Pressure	10.3 Bar/150 PSI/1,030 kPa
Air flow rate at 0 bar	10 l/min
Auto-stop function	yes
Charging	USB / approx. 3h
Dimensions (Length x Width x Height) / Air Hose Length	215 x 53 x 103 mm / 240 mm
Weight	500 g
Scope of Delivery / Recommended Retail Price including 19% VAT	<p>Device in cardboard box with a textile bag, ball needle, adapter for a French French valve, as well as volume adapter and quick-snap adapter/ €69.99</p>

Technical Specifications	PSR Select
Battery voltage/capacity	3.6 V Lithium-Ion / interchangeable 2.0 Ah battery
Max. Torque	7,5 Nm
No-load speed	210 rpm (revolutions per minute)
Bit drum capacity	12 screwdriver bits
Bit holder	Magnetic bit holder with hexagonal shank
Charging	USB / < 3 h
Dimensions (Length x Height x Width)	149 x 157 x 52 mm
Weight (incl. 2.0 Ah battery)	600 g
Scope of delivery / Recommended retail price including VAT	12 screwdriver bits, 1x Battery BA 4V 2.0Ah S-B, Cardboard packaging / €69.95

The Bosch Group is a leading global supplier of technology and services. It employs roughly 413,000 associates worldwide (as of December 31, 2025). The company generated sales of 91 billion euros in 2025. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, digitalization, electrification, and artificial intelligence. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in hardware, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture intelligent, user-friendly, and sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 500 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. Bosch employs some 82,000 associates in research and development.
