

New Daily Helpers from Bosch

Gas level detector, stapler, and window cleaner expand the Daily Helper product line

July 2026

PI 12119 PT MR

- ▶ Compact and lightweight: New tools for everyday use and on the go
- ▶ Intuitive and flexible: Easy handling, quick battery change
- ▶ Innovative and clever: As gift idea or household helper

Stuttgart / Leinfelden – Is there enough gas left for the next barbecue? How do I fix the loose chair cushion? And who wants to spend ages cleaning windows? The new [Daily Helpers](#) from Bosch solve these everyday questions quickly and easily: The product line includes clever and compact power tools that make life at home easier. New among the Daily Helpers are the Filio gas level detector, the Tweo cordless stapler, and the GlassVac cordless window cleaner. These handy helpers are designed for daily tasks and impress with their compactness, versatility, and ease of use.

Filio: Precise level measurement for gas cylinders

To ensure the gas cylinder doesn't suddenly run empty at the next barbecue or camping trip, Bosch offers an easy way to measure the fill level with the new Filio and arrange for a replacement in good time. The compact daily helper checks the gas cylinder's fill level using state-of-the-art ultrasound measurement technology. Thanks to integrated magnets, the tool effortlessly adheres to the outside of gas cylinders and automatically aligns itself at a precise 90° angle. The measurement starts directly upon attachment, and the fill level is indicated via a dual indication system. LEDs on the top, a light ring around the trigger button, and an acoustic signal instantly show the result: A green light signals gas, while a red light indicates its absence. Measurement can be restarted by pressing the trigger button. Filio is suitable for all common steel and aluminum gas cylinders with Propane or Butane, with a diameter of 200 to 350mm. Whether for a gas grill, patio heater, or camper: With Filio, users are well-equipped for any adventure.

Tweo: Compact stapler for versatile fastening tasks

For decorating, crafting projects, or DIY activities, the new Tweo cordless stapler is a compact and versatile helper. As the successor to the PTK 3.6 LI, its cordless design effortlessly fastens fabrics, cardboard, or paper to soft wood surfaces, allowing for flexible work indoors and outdoors. Thanks to the practical BA 4V exchangeable battery, which can be charged directly in the tool via USB, Tweo is ready for use anytime, anywhere. The proven "Push+ Release" system ensures controlled application: A shot is only triggered when the stapler nose is firmly pressed onto the workpiece. This prevents accidental self-triggering and ensures precise results. The ergonomic design makes handling easy, even during longer projects. Practical indicators constantly show the battery and staple fill levels to ensure uninterrupted workflow. With the new multi-page stapler attachment included in the scope of delivery, Tweo becomes even more versatile. It transforms the stapler into a powerful office helper in an instant, effortlessly stapling up to 60 sheets of paper and thus impressing even with office and writing tasks.

GlassVac: Useful window cleaner for clear vision

The product line is complemented by the GlassVac cordless window cleaner, which ensures streak-free cleanliness. Equipped with patented triple-lip technology from Bosch, it delivers flawless results on windows, mirrors, and tiles. A major advantage over its predecessor is the removable 120mm dirty water tank, which can be emptied quickly and hygienically. In addition, the design allows for unrestricted 360° application – GlassVac therefore cleans in any position, even horizontally or overhead. The cordless tool also runs on a flexible BA 4V exchangeable battery, which can be charged directly in the tool via USB port in approximately two hours. With one battery charge, the cleaner runs for up to 35min, which is sufficient for a cleaning area of around 120m² – equivalent to about 40 windows. The set includes a spray bottle with a washable microfiber cloth and two exchangeable suction heads with widths of 280 and 140mm.

Tool specifications	Filio
Measuring diameter	200 – 350mm (steel & aluminium)
Measurable gases	Propane, Butane
Measuring technology	Ultrasound
Energy source	2 x 1.5V LR 03 (AAA)
Dimensions (L x W x H)	142 x 47 x 33mm
Weight (without batteries)	0.1kg
Scope of delivery / recommended retail price plus VAT	Tool with 2x 1.5V LR 03 (AAA) batteries: € 51.99

Tool specifications	Tweo
Battery voltage / capacity	3.6V Lithium Ion / 2.0Ah
Charging type / time	USB (<3h)
Fine wire staples	4 – 10mm
Shots per minute	30 bpm
Magazine capacity	100 pcs
Dimensions (L x W x H)	151 x 49 x 161mm
Weight (with battery)	0.8kg
Scope of delivery / recommended retail price plus VAT	Tool with 1000 staples type 53 (8mm), Compact Power BA 4V 2.0Ah battery, multi-page stapler attachment: € 69.95

Tool specifications	GlassVac
Battery voltage / capacity	3.6V / 2.0 Ah
Charging type / time	USB (<2h)
Runtime	35min
Cleaning area per battery charge	120m ²
Dirt water capacity	120ml
Spray applicator bottle capacity	300ml
Head width	280/140mm
Dimensions (L x W x H)	144 x 280 x 313mm
Weight (with battery)	0.8kg
Scope of delivery / recommended retail price plus VAT	Tool with Compact Power BA 4V 2.0Ah battery, small suction head, spray applicator with microfiber cloth: € 79.99

Subject to change.
