

Thomas Quante to become CEO of Bosch Building Technologies

May 2021

PI 11337 BT/COM

- ▶ Thomas Quante takes over as CEO of the Bosch Building Technologies division on June 1, 2021
- ▶ Quante has been a board member for the division since 2015

Thomas Quante (54) will take over as President of the Bosch Building Technologies division on June 1, 2021. As a board member for the division, he was previously responsible for the international system integrator business as well as for the fire alarm systems business within the global product business. Quante succeeds Dr. Tanja Rückert (51), who will become Chief Digital Officer of the Bosch Group on July 1, 2021.

"In the field of safety, security and building technology, we are operating in a very exciting and dynamic market environment. Due to the growing integration of artificial intelligence and the Internet of Things, we see enormous potential for innovative AIoT solutions and intelligent services that provide even more energy efficiency, comfort, security and safety for our customers. I am very pleased to be playing a key role in shaping this development," explains Thomas Quante.

Quante, who has a degree in business administration, began his career in 1994 at Robert Bosch GmbH and has worked as an executive with strategic and operational responsibilities in various Bosch divisions in Germany and abroad. Quante has broad experience in the B2B sector as well as in-depth market and customer knowledge in building and security & safety technology. Joining Bosch Building Technologies in 2012, Quante initially headed the international business for professional communication and audio systems based in Burnsville, USA. In 2015, he became a member of the board for Bosch Building Technologies, where he played a key role in establishing and successfully developing the international system integrator business.

The Bosch division Building Technologies is a leading global supplier of security, safety, and communications products and systems. In selected countries Bosch offers solutions and services for building security, energy efficiency and building automation. About 8,800 associates generated sales of 1.9 billion euros in 2020. Protecting lives, buildings and assets is the major aim. The product portfolio includes video security, intrusion detection, fire detection and voice evacuation systems as well as access control and management systems. Professional audio and conference systems for communication of voice, sound and music complete the range. Building Technologies develops and manufactures in its own plants in Europe, Americas and Asia.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 395,000 associates worldwide (as of December 31, 2020). The company generated sales of 71.5 billion euros in 2020. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. With its more than 400 locations worldwide, the Bosch Group has been carbon neutral since the first quarter of 2020. The basis for the company's future growth is its innovative strength. At 129 locations across the globe, Bosch employs some 73,000 associates in research and development, of which nearly 34,000 are software engineers.
