

### Strong addition in the “18V Power for All System”: **First cordless paint spray system from Bosch for DIYers** Convenient solution for wood and metal painting

April 2022

PI 11462 PT MR

- ▶ New segment for an even wider range of applications with 18V
- ▶ Ergonomic handling thanks to a lightweight spray gun and a separate motor unit
- ▶ Simple adjustment of the paint flow to different projects
- ▶ One battery for many applications: Save space, save money, protect the environment

With the EasySpray 18V-100, Bosch is adding a popular application among DIYers to the [‘18V Power for All System’](#): Convenient and even wood and metal painting without a dripping paint roller or brush – and without any power cord at all. The EasySpray 18V-100, the first cordless paint spray system from Bosch, is suitable for processing all common water-based wood and metal paints such as lacquers and varnishes. The ‘18V Power for All System’ covers all representative tools in each segment and currently comprises more than 40 DIY, garden, and home appliances – and even extends beyond the Bosch range with additional partners in the cross-brand [‘Power for All Alliance’](#). All tools – from rotary hammer to lawn mower and even vacuum cleaner – can be operated with the same 18V lithium-ion battery and only one charger. This saves users space and money and protects the environment.

#### **Ergonomic handling: Lightweight spray gun and separate motor unit**

The cordless paint spray system EasySpray 18V-100 is suitable for small to medium-sized projects such as painting doors and chairs, varnishing garden furniture or coloring wood and metal fences. Depending on the selected paint and the degree of dilution, several meters of fence can be conveniently sprayed with a 2.5 Ah battery charge, for example. Convenient above all because the 18V lithium-ion battery is not located under the spray gun, as is the case with conventional tools, but on the motor unit, which is worn on the body by means of a shoulder strap. This makes the spray gun lighter and more compact, so that DIYers can apply the paint in a relaxed manner in any position.

### **Fast, efficient, and even paint application**

The desired intensity of the paint application is easily set using the EasySelect control on the spray head. 3 different spray patterns can also be selected: horizontal, vertical, or round. Easy-to-understand symbols on the tool help to do so. A graphic shows the correct spraying technique and the correct distance to the surface required to achieve a good result. This makes it easy to apply paint quickly, evenly, and cleanly. The paint container holds up to 800 ml of paint and is quickly refilled. Once you have finished applying the paint, you can simply rinse the paint-carrying parts with water and then start the next project.

The EasySpray 18V-100 is now available. All prices are recommended retail prices including VAT.

<b>Tool specifications</b>	<b>EasySpray 18V-100</b>
Battery voltage	18 V
Delivery capacity	0 – 100 ml/min
Paint application	1 m <sup>2</sup> /min
Volume of paint container	800 ml
Housing dimensions (Length x width x height)	226 x 120 x 181 mm
Dimensions of spray gun including paint container (length x width x height)	232 x 124 x 208 mm
Hose length	1.25 m
Weight without paint and battery	1.8 kg
Scope of delivery/recommended retail price including VAT	Tool in cardboard box with shoulder strap and cleaning brush (without battery and charger): €99.99

Subject to change.

The Robert Bosch Power Tools GmbH, a division of the Bosch Group, is one of the world's leading providers for power tools, garden tools, power tool accessories and measuring tools. In 2020, its roughly 20,000 associates generated sales of 5.1 billion euros, about 85 percent of which outside of Germany. With brands such as Bosch and Dremel, the division stands for customer focus and great engineering progress. The core success factors are innovative strength and pace of innovation. In 2021, Bosch Power Tools will again launch more than 100 new products onto the market in its four business segments power tools, garden tools, accessories and measuring tools.

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 401,300 associates worldwide (as of December 31, 2021). According to preliminary figures, the company generated sales of 78.8 billion euros in 2021. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group's strategic objective is to facilitate connected living with products and solutions that either contain artificial intelligence (AI) or have been developed or manufactured with its help. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life." The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. With its more than 400 locations worldwide, the Bosch Group has been carbon neutral since the first quarter of 2020. The basis for the company's future growth is its innovative strength. At 28 locations across the globe, Bosch employs some 76,300 associates in research and development, of which more than 38,000 are software engineers.*
