

Bosch 800 Series Induction Cooktop and Dishwasher Selected as Good Housekeeping 2027 Kitchen Award Winners

October 27, 2026

PI 319

- ▶ Bosch 36-inch induction cooktop and 24-inch dishwasher selected by analysts and consumer testers – highlighting innovations like AutoChef® and patented CrystalDry™ Zeolite mineral technology
- ▶ The awards come on the heels of [800 Series induction cooktops](#), [double wall ovens](#), [FDBM refrigerators](#) and [dishwashers](#) earning the coveted Good Housekeeping Seal – backed by a limited warranty

IRVINE, Calif. (October 27, 2026) – [Bosch Home Appliances](#), the award-winning global brand celebrated for precision engineering and premium quality, announced today that the Bosch 800 Series induction cooktop 36-inch and Bosch 800 Series dishwasher 24-inch were named winners in Good Housekeeping's 2027 Kitchen Awards. The full list of awards can be found at goodhousekeeping.com/kitchenawards2027.

The Good Housekeeping Institute's kitchen and food experts — including appliance analysts, trained cooks, recipe developers and nutritionists — spent months testing a wide range of new and best-selling products designed to make kitchen life easier. They evaluated countertop, indoor and outdoor appliances; cooking tools; cookware; and more — as well as foods for your fridge, freezer and pantry.

Analysts assessed products in the GH labs and test kitchens, and they also sent samples to more than 640 consumer testers to use in their own kitchens. The winners were selected based on quality, performance, value, usefulness and — where applicable — taste.

The Bosch 800 Series induction cooktop and 800 Series dishwasher earning this recognition further reinforced Bosch's commitment to offering premium, high quality, precision German engineering across its consumer home appliance offerings. The recognition is also on the heels of Bosch products earning the coveted Good Housekeeping Seal this year: [800 Series induction cooktops](#), [800 Series double wall ovens](#), [800 Series French Door Bottom Mount refrigerators](#) and [800 Series dishwashers](#).

Bosch 800 Series Induction Cooktop 36-inch (NIT8661UC):

- AutoChef® automatically regulates cooking temperatures according to preference and adjusts as needed, enabling the home cook to get perfect results without the work of shifting heat levels.
- A standard triple ring element intelligently adjusts to the size of the cookware, from nine inches up to 13 inches, for optimized cooking.
- SpeedBoost® delivers a boost of power to the burner so users can

boil a pot of water faster or heat a pan up quickly to get ready for searing.

- A favorite button allows for a one-touch shortcut for two frequently used cooking functions. Set favorites once on the Home Connect® app, then use a long or short press directly on your cooktop.
- Includes 17 different power levels to provide chefs with precise heat and consistent, repeatable results.

No. 1 Dishwasher Brand Worldwide*: Bosch 800 Series Dishwasher 24-inch in Stainless Steel (SHP78CM5N):

- Bosch's legendary patented CrystalDry™ technology is the first and only in the market to use Zeolite minerals to transform moisture into hot air for 20 times drier dishes**, even plastics. All while saving energy.
- Featuring PowerControl™, the dishwasher delivers the industry's most advanced clean. The PowerControl spray arm targets the dirtiest dishes, leaving every dish spotless so you can say goodbye to pre-rinsing, scrubbing or handwashing.
- A whisper quiet 42 decibel noise level continues the brand's legacy of creating some of the quietest dishwashers on Earth.
- The expandable wings in the third rack lower to accommodate bulky utensils and larger kitchen tools. Adjustable tines in all three racks enable customizable loading spaces to fit items of varying size and shape.
- The EasyGlide™ rack system is redesigned to create a smooth glide on all three racks — even when fully loaded.
- The cleaning experience is elevated, while maintenance features that extend the life of the appliance are enabled with the Wi-Fi enabled Home Connect® smart home app.

About Bosch Home Appliances

With a focus on creating products that simplify life, Bosch is known nationwide and globally for raising the standards in precision engineering, quietness, efficiency and design. The company has been selling high-quality, premium appliances in the United States since 1991, frequently receiving top ratings in leading consumer publications. Bosch Home Appliances is part of Munich based BSH Home Appliances Group (a Bosch Group company), a global leader in the home appliance industry. With its North American headquarters in Irvine, California, the company operates manufacturing facilities in multiple locations across the continent. To learn more: <https://www.bosch-home.com/us/>

About Bosch

Having established a presence in North America in 1906, today the Bosch Group employs around 38,000 associates in more than 100 locations in the North American region (as of Dec. 31, 2025). In 2025, Bosch generated consolidated sales of \$18.8 billion in the U.S., Mexico and Canada in 2025. For more information visit www.bosch.us, www.bosch.mx and www.bosch.ca.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 413,000 associates worldwide (as of December 31, 2025). The company generated sales of 91 billion euros in 2025. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology. With its business activities, the company aims to use technology to help shape universal trends such as automation, digitalization, electrification, and artificial intelligence. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in hardware, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture intelligent, user-friendly, and sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 500 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. Bosch employs some 82,000 associates in research and development.

The company was set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as "Workshop for Precision Mechanics and Electrical Engineering." The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant upfront investments in the safeguarding of its future. Ninety-four percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a limited liability company with a charitable purpose. The remaining shares are held by Robert Bosch GmbH and by a company owned by the Bosch family. The majority of voting rights are held by Robert Bosch Industrietreuhand KG. It is entrusted with the task of safeguarding the company's long-term existence and in particular its financial independence – in line with the mission handed down in the will of the company's founder, Robert Bosch.
