Bosch Home Comfort Group Expands GoTemp Digital Platform with New Homeowner App and Added Capabilities for Contractor App

The GoTemp Home app offers homeowners remote temperature control, while new features and Bluetooth connectivity for GoTemp Pro helps contractors streamline service and troubleshooting

- Using GoTemp Home, homeowners can now remotely adjust temperature settings, create heating and cooling schedules, and track system runtime
- On-site technicians can securely share real-time system data with authorized remote support, helping streamline troubleshooting

DALLAS, Nov. 11, 2026 – Today, Bosch Home Comfort Group announced two updates to its GoTemp digital platform: the launch of GoTemp Home, a new homeowner app, and a Remote Support feature on the GoTemp Pro contractor app, which uses Bluetooth connectivity to share on-site system data with remote contractors for diagnostic support. GoTemp Home and GoTemp Pro are available for download in the App Store or on Google Play.

“We’re expanding the GoTemp ecosystem to make managing home comfort simpler and more convenient for contractors and homeowners,” said Bahadir Taskonak, vice president and head of residential products, Bosch Home Comfort Group Americas. “Bluetooth-enabled access to critical system data and diagnostics give contractors the information they need to troubleshoot faster and work more efficiently, helping streamline service. And, with the new GoTemp Home app, homeowners have greater flexibility and control over their comfort, with the ability to manage their connected system from virtually anywhere.”

GoTemp Home App: Benefits for Homeowners

The release of the GoTemp Home app coincides with the launch of the new SHC350 Smart Home Control thermostat and establishes a mobile platform to support next-generation thermostats. Using the GoTemp Home app, homeowners can remotely adjust thermostat settings, create and modify heating and cooling schedules, and track system performance for compatible products from the YORK®, Luxaire®, Champion®, Coleman® Heating and Cooling, Evcon™, Fraser-Johnston® and Guardian® brands.

When the GoTemp Home app is used with the Ducted Heat Pump Gateway and SHC350 thermostat, homeowners can access additional benefits, including optimal system control and demand response capabilities.

GoTemp Pro App: Benefits for Contractors

The new Remote Support feature helps streamline service calls by enabling remote troubleshooting for supported residential variable-capacity equipment. On-site technicians can securely share system data points and diagnostics with authorized remote support personnel.

About Bosch

Having established a presence in North America in 1906, today the Bosch Group employs around 38,000 associates in more than 100 locations in the North American region (as of Dec. 31, 2025). In 2025, Bosch generated consolidated sales of $18.8 billion in the U.S., Mexico and Canada in 2025. For more information visit www.bosch.us, www.bosch.mx and www.bosch.ca.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 413,000 associates worldwide (as of December 31, 2025). The company generated sales of 91 billion euros in 2025. Its operations are divided into four business sectors: Mobility, Industrial Technology, Consumer Goods, and Energy and Building Technology.

With its business activities, the company aims to use technology to help shape universal trends such as automation, digitalization, electrification, and artificial intelligence. In this context, Bosch's broad diversification across regions and industries strengthens its innovativeness and robustness. Bosch uses its proven expertise in hardware, software, and services to offer customers cross-domain solutions from a single source. It also applies its expertise in connectivity and artificial intelligence in order to develop and manufacture intelligent, user-friendly, and sustainable products. With technology that is "Invented for life," Bosch wants to help improve quality of life and conserve natural resources. The Bosch Group comprises Robert Bosch GmbH and its roughly 500 subsidiary and regional companies in over 60 countries. Including sales and service partners, Bosch's global manufacturing, engineering, and sales network covers nearly every country in the world. Bosch's innovative strength is key to the company's further development. Bosch employs some 82,000 associates in research and development.

The company was set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as "Workshop for Precision Mechanics and Electrical Engineering." The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant upfront investments in the safeguarding of its future. Ninety-four percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a limited liability company with a charitable purpose. The remaining shares are held by Robert Bosch GmbH and by a company owned by the Bosch family. The majority of voting rights are held by Robert Bosch Industrietreuhand KG.

It is entrusted with the task of safeguarding the company's long-term existence and in particular its financial independence – in line with the mission handed down in the will of the company's founder, Robert Bosch.
